

## CITY OF NORMAN, OK STAFF REPORT

---

**MEETING DATE:** September 9, 2025

**REQUESTER:** Katherine Coffin

**PRESENTER:** David Riesland, Transportation Engineer

**ITEM TITLE:** CONSIDERATION OF ADOPTION, REJECTION, AMENDMENT, AND/OR POSTPONEMENT OF RESOLUTION R-2526-36: A RESOLUTION OF THE COUNCIL OF THE CITY OF NORMAN, OKLAHOMA REQUESTING \$7,500,000 IN STBG-UZA FUNDING FOR IMPROVEMENTS TO TECUMSEH ROAD BETWEEN FLOOD AVENUE AND 24<sup>TH</sup> AVENUE NW IN NORMAN.

---

### **BACKGROUND:**

The current federal transportation funding bill allocates approximately \$40 Million in Federal funds per year for the implementation of eligible transportation improvements in the Oklahoma City Metropolitan Area. Ten percent of this appropriation is used to fund safety projects at 100% of their construction cost.

Every year, the Association of Central Oklahoma Governments (ACOG) coordinates a regional evaluation process that identifies transportation improvements eligible for federal funding. Individual projects are rated and compared to one another using a pre-established criterion. The process ends with the formulation of the region's transportation improvement program and the decision to use federal funds to pay for a significant portion of the cost of the higher priority projects.

### **DISCUSSION:**

On or before the end of October 2025, staff will submit the ten highest ranked projects for consideration in the formulation of ACOG's 2029 Transportation Improvement Program update. To be eligible, each submitted project must have a programming resolution submitted for the project with a cost that matches the engineer's estimate.

### **RECOMMENDATION:**

Staff recommends approval of Resolution R-2526-36 (Tecumseh Road Improvements between Flood Avenue and 24<sup>th</sup> Avenue NW) requesting \$7,500,000 (the maximum amount of federal matching funds that can be allocated to an individual project under the criteria) in Federal STBG/UZA funds for 70.65% of the projected construction cost.
