RE: Osborn Drugs – 1035 36th Ave. NW – No Rise Statement

The snip above is from the permit plan set prepared by Krittenbrink Architecture dated 07.09.2025. It illustrates the existing site plan where a small amount of exterior curb on the south side of the building is being removed. No other materials, grades, or exterior features are being altered. Due to that fact, I certify that the proposed remodel of this building will have a no-rise impact on the height of the 100-year flood (Base Flood Elevation).
