# What are Renewal by Andersen® windows made of?

All of our windows are made of Fibrex® material, a revolutionary composite made from reclaimed wood fiber blended with a polymer. This gives our windows the strength and durability of wood and the low-maintenance features of vinyl, while greatly limiting thermal transmittance that can be found in other window materials such as metal.

**Unlike many other window materials, Fibrex composite material won't flake, rust, blister, peel, crack, pit, or corrode.<sup>1</sup> It is also two times stronger than vinyl and resists warping and bowing. Never worry about scraping or painting your windows again.**

ENGINEERED WITH  
**FIBREX®**  
MATERIAL

ANDERSEN  
**EXCLUSIVE**  
FEATURE

## Smart Materials

Fibrex material is twice as strong as vinyl, so weathertight seals stay weathertight.

## Color Choice

Our unique process fuses color to Fibrex material for long-lasting beauty. And it offers dark exterior colors not available on most other replacement windows.

## Exceptional Comfort

Fibrex material blocks thermal transfer nearly 700 times better than aluminum to help reduce heating and cooling bills.

## Outstanding Durability

Fibrex material retains its stability and rigidity in all climates.<sup>1</sup>
