Notes:

A young couple came to us having been homeless in a tent for more than a year. They had woken up the night before with a stranger coming into their tent yelling at them for sleeping. They decided even if they had to be in separate dorms it would be safer to be inside. Having access to the safety and support of A Friend's House helped them develop a plan. We helped both get their ID and Birth Certificates. This helped them access benefits. On September 29th, this couple moved into an apartment.
