PUBLIC COMMENTS – GENERAL

Cost / Funding

- How much is this going to cost and be financed?
- Some of these plans are too much money. Why not take advantage of the good have and do remodels plus add to areas we need (ex, paddleball, irrigation, extra indoor courts).
- I am all for a new clubhouse – there is no need for a complete course shutdown and remodel.
- Many improvements could be made at a fraction of the cost.

Support

- Nice Renders.
- Love it, Keep Going!
- DO IT!!!
- Wonderful news, badly needed.
- Looks awesome. Needs to be a council priority. Support this over funding the OU arena any day!

PUBLIC COMMENTS – GENERAL

Traffic Flow

- Need to see a traffic study for this master plan.
- New entrance on Robinson will need turn lanes at least and probably traffic signal.
- How will the exit/entry from Robinson occur? Will there be an overpass or stop lights on very busy Robinson?
- Accidents waiting to happen trying to get on Robinson from Qdoba going west.
- Why can there not be an entrance from the stoplight at Sonic?

Paving / Parking

- Incorporate some green parking (drain to vegetation at a minimum).
- Some kind of mitigation for all the impervious surfaces being added.
- How will the increased impervious area affect the creek & water quality? Please include some green infrastructure like curb cuts, pervious pavement, green roofs, etc. and solar panels!
- Solar panels on the building would be awesome to see.
- Reversed angle parking for golfers and a cart pathway for them to load and unload their clubs.
- Bigger parking spaces for larger vehicles.

PUBLIC COMMENTS – WESTWOOD GOLF

Course

- Extend the driving range as the grass needs to be rotated every couple of days.
- Facility & clubhouse upgrades are nice, but the condition of the course is most important.
- Proposed design will not promote new tournaments because it's still a Par 70. Sell the property and purchase a larger lot of land to make a Par 72 golf course (or same course location & combine all clubhouses).
- Driving range should have charging ports for cell phones.
- Add tee boxes
- The golf course should not be changed. Just add things to make it even better.
- Add a few longer holes.

Irrigation / Water Management

- Irrigate the whole property.
- Why does the creek east of hole 8 & 10 end at someone's house?
- The flow out of the pond should go east before joining with the creek.

PUBLIC COMMENTS – WESTWOOD GOLF

Price / Value

- It's not anywhere near worth the price to play it.
- I'm a city employee and I will not pay to play Westwood. I go to other town's courses instead of Westwood.
- Norman golfers need a great affordable course.

Timing

- I'm a Marshal here so I worry about what we will do during construction.
- I would like the remodel done ASAP. Please get this done.

Support

- Rick and his team do a great job maintaining a great golf course.
- I love Westwood, but it is worn out, every aspect needs to be redone.
- I like all the changes put forth.

PUBLIC COMMENTS – WESTWOOD TENNIS

Tennis Courts

- Highly Stressed: Courts located on Robinson are too loud. Unable to hear scores & calls due to street noise.
- Maybe put building there. / Move indoor courts and pickleball to back up to Robinson St. to give a buffer.
- Need more courts.
- Indoor courts are used mainly for pros – not available for public play.

Pickleball

- Very interested in pickleball.
- Love separation of tennis courts and pickleball courts!
- Flexible hours for pickleball & lessons for adults & kids.
- Indoor facility that is open early / closes late to play before or after work.
- Forget about the pickleball courts (unnecessary). Use that area for extra parking.

Timing

- What time frame will we be without courts?

PUBLIC COMMENTS – WESTWOOD TENNIS

Lighting

- All courts should have working lights.
- Lights come on at dusk/heavy overcast and/or staff knows how to turn on & off.
- The kind of lights that do not get in a player's eyes on the other courts. (Best = Earlywine / Worst = Edmond)

Landscaping

- Too many trees in drawing. Leaves are a constant problem on courts.
- Deciduous trees along tennis courts is beautiful, but a nightmare to maintain.
- Believe the city could be liable for all the falls the players will incur if the leaves are not removed daily in the fall.

Security

- Secure the facility. Customer should only be able to get to the courts through pro shop (ex, Earlywine & Edmond).
- Fees would also be able to be taken. (Currently not happening)
- Fence around the whole facility.
- Doors that work and lock.

PUBLIC COMMENTS – WESTWOOD TENNIS

Usage

- What is the data for Westwood tennis now?
- Indoor court usage and by whom? Lessons, drills, player matches, private lessons vs. public use.
- Outdoor court usage? By whom?
- Number of pickleball players? Number of tennis players?
- Has Westwood tennis been audited? What are the numbers?
- Indoor courts filled with private lessons, so the public has limited use of time. Will adding 3rd indoor court help?

Management & Maintenance

- Better maintenance & better management needed. These are not addressed by a new facility.
- Is there enough money budgeted to manage and maintain this new facility?
- Front desk is often empty, phones not answered & fees not taken.
- Trash cans not emptied therefore blows on court.
- Trash and leaves need to be removed from courts.

PUBLIC COMMENTS – WESTWOOD TENNIS

Management & Maintenance Continued

- Windscreens not repaired or replaced.
- No one answers the phone or desk to take court reservations. Told the phone system does not work.
- No one available to pay for courts, balls, drinks, etc.
- Need working squeegees.
- Remove or repair drink holders on court.
- Nets fixed – dangerous – feet can get caught in ripped edges.
- Open and staffed during busy summer holidays – golf and pool at Westwood are open 4th of July.
- Same standard for everyone regarding who pays and how much for indoor and outdoor courts.
- Same standard for everyone regarding reservations – all staff follow same policy.
- Fence not secured at bottom – dangerous for tripping and balls roll under.

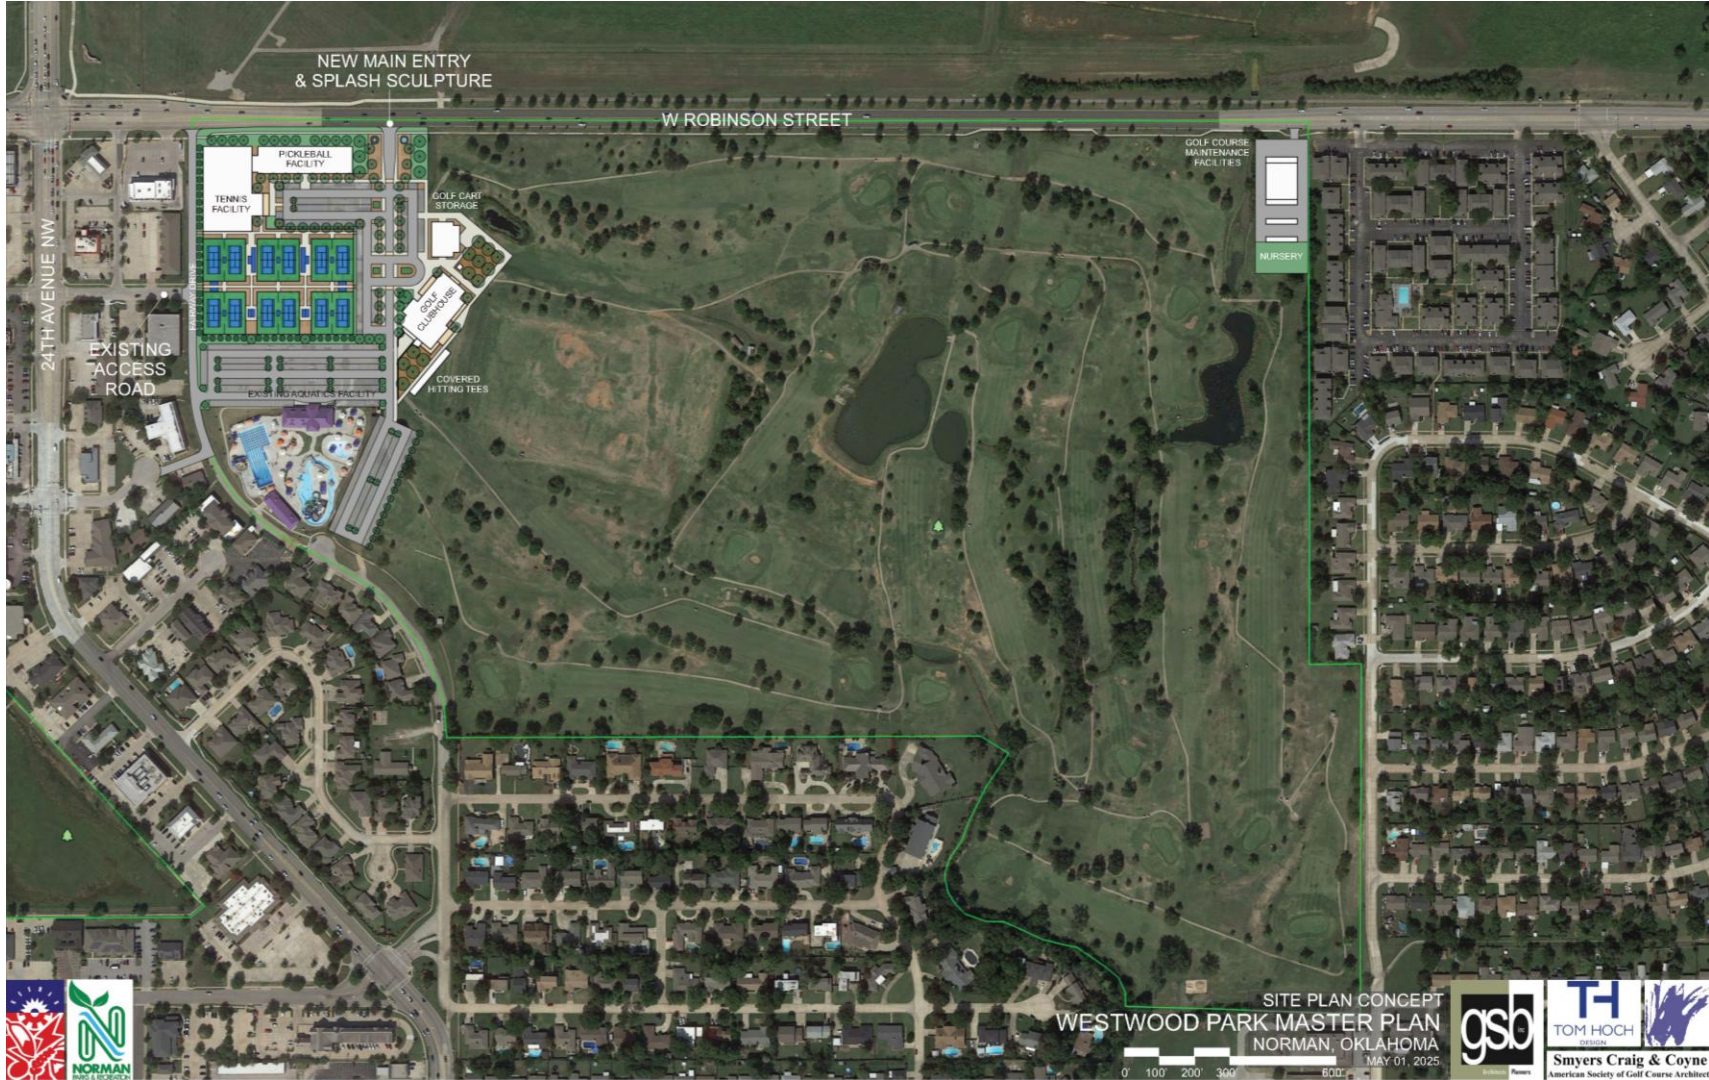

COMMITTEE COMMENTS: April 18, 2025

- Agreed to flipping the tennis / pickleball facilities to reduce traffic noise on courts from Robinson St
- Add additional tees to covered hitting tees pavilion and move to south side of clubhouse
- Remove standalone At-the-Turn Grill and consolidate with main dining & kitchen
- Eliminate junior tennis courts
- Add additional indoor tennis court
- Eliminate trees between courts
- City funding needed for operating costs once master plan is implemented
- Sell single family pass (swim, golf & tennis)
- Show “Splash” sculpture placement

Why Renovate Golf Course?

- Irrigation and Drainage Infrastructure at Life Span
- Irrigation Reservoir Capacity (Capturing Runoff)
- Bunker Quality
- Cost to Enhance Design is the Same as in Place
- New Facilities Impacting Golf Course Footprint
- There is a Cost to Doing Nothing
- Be the Best Westwood can be!

WILD WILD WESTWOOD ...

“Folk Style Golf Architecture is informed by the land. It is an inspired use of the geography to help the architect tell the story to the golfer ...

... a story crafted from the unique characteristics from the surrounding area.

It takes what the land gives and creates utility, prioritizing the useful over the decorative. ”

-Tom Coyne

Accessories

“Greatness is in the margins”

Properly accessorizing your golf course in the right theme is the final touches to make your golf course truly stand out from the competition.

Elegant Tee Markers

Wood Bunker Rakes

Bag Stands

Simplistic Rustic Hole Signage

Existing photo of 8th Tee Box - Far over accessorized with man-made structures.

“Tee Marker” for Putting Course

Return the retro jersey font flags from the original course

Plant Pallet

The planting scheme will strategically screen the golf course to make for a peaceful environment within nature. The exterior margins of the golf course will be planting to screen from busy roads, unsightly structures, and aquodoc complexes.

Botanical Name	Common Name	Qty	Spacing	Size
Cupressus arizonica	Arizona Cypress	45	15-20' o.c.	15-20 gal.
