Rev. 3/22/23 5

4. **Identify** schools, recreational areas (parks, playgrounds), commercial sites, or other public **open** spaces within ½ mile of your proposed development. (If there are no such areas within the ½ mile radius please **state** such and skip question 5.)

Walmart is located to the North. Songbird Park is located to the West. The Links Golf Course is to

5. Projects in close proximity to schools, recreational areas (parks, playgrounds), commercial sites, and residential neighborhoods should, ideally, allow connection points promoting nonmotorized transportation between key areas. Please **describe** how the proposed development plan accommodates those using alternative transportation, such as walkers and bicyclists? Examples include sidewalks connecting key areas, designated bike paths, and bike parking. (If there is **no** such connectivity please **state** such.)

Sidewalks will be installed where required by City Ordinance, as shown on the Site Plan

6.	Please	check, f	rom the	following	(or	attach	a list), any	other	geographical	and/or
	environ	mental fa	ctors in yo	our develor	omer	nt that n	night d	offer op	portuni	ties for addition	ns to the
	Green	ച t System	(see Sec	tion 2-327).			Ü		•

	Ļ	Utility Ec									
	L			ve RR corri	dors						
		Other									

How could your development also incorporate those elements noted into greenbelts and trails?

Open Space will be privately owned and maintained, unless otherwise shown on the final plats

7. Please review the statements below and indicated in the space next to each item, whether it does apply ("Yes"), does not apply ("No"), or is not feasible ("NA") to your development. Of specific interest is how your project fits into the public open spaces and parks.

In performing its duties, the Greenbelt Commission shall take into account the considerations listed below. The Commission will also consider how your project fits into the public open spaces and parks that are existing. Not all considerations will be applicable or feasible for each application.

- y (a) Portions of the Greenbelt System are accessible to the general public.
- <u>y</u> (b) Greenways are established and provide connections to other existing and future components of the Greenbelt System.
- x (c) Existing easements (e.g., utility, pipeline, oil lease right-of-way, etc.) may be used for Greenways where appropriate and where expressly approved by the easement grantor and grantee.

6 Rev. 3/22/23

- <u>V</u> (d) Greenways connect neighborhoods to each other and to industrial and commercial areas.
- <u>v</u> (e) Greenways provide alternative routes to move through the City for commuting to work, schools, shopping, between neighborhoods, and/or other destinations by bicycling or walking.
- <u>x</u> (f) Adverse impacts on existing topography, drainage patterns and natural vegetation are minimized.
- <u>x</u> (g) Developments between urbanized Norman and Lake Thunderbird include pedestrian and bike connectivity to adjacent parcels to allow for future connections to Lake Thunderbird.
- <u>x</u> (h) Landscaping required by the City has been/will be planted in conformance with Norman Zoning regulations, including with local drought-resistant low maintenance plans, shrubs and trees.
- <u>x</u> (i) Vegetative buffers between neighborhoods and railway lines have been provided to enhance safety and reduce the effects of noise and air pollution.
- \underline{x} (j) Permeable ground surfaces have been preserved to the extent possible.
- <u>v</u> (k) Ingress and egress to and from a development is designed to permit safe use by non-motorized traffic in and out of the development and across the ingress and egress provisions of the development.
- <u>x</u> (I) Fences abutting components of the Greenbelt System, and particularly those abutting green spaces, are of designs and materials that minimize their visual impact to the extent such fences are allowable under Norman City Code and not in conflict with applicable national standards for utility facilities. Examples of acceptable open fences include such types as wrought iron, split rail, low picket fence with every other picket removed, and metal pickets.
- \underline{x} (m) Water retention and detention storage facilities are designed in accordance with bioengineering principles and built with bioengineering materials.
- <u>x</u> (n) Detention facilities are integrated into the surrounding neighborhood as part of the Greenbelt System in as ecologically sound a method as possible.
- \underline{x} (o) Storm water management design considers the potential for trail and green space preservation, enhancement and/or creation.
- \underline{x} (p) The development layout is designed to preserve the health and diversity of wildlife affected by development in natural drainage corridor areas.
- \underline{x} (q) The development layout is designed to minimize the intrusions of noise, trash and other things into the Greenbelt System that would negatively affect visitors' and users' experience of any impacted components of the Greenbelt System.
- \underline{x} (r) To the extent possible, the development layout, as designed, does not impair the ability of riparian buffers from serving as corridors for wildlife movement.
- <u>x</u> (s) Riparian buffers are incorporated into the Greenbelt System.
- \underline{v} (t) The commercial developments have provided for pedestrian access.
- \underline{x} (u) Pavement is minimized when possible by, among other things, using shared parking areas and/or permeable parking surfaces where feasible and allowed under the Zoning Ordinance of the City of Norman and the City Engineering Design Criteria.
- \underline{x} (v) Cluster development has been utilized as a means to develop the Greenbelt System.
- \underline{x} (w) Structures, other than utility transmission poles or substations, were located to maximize greenbelt and trail opportunities.

8. If , after reviewing the above questions, you feel like your proposed development or project has no opportunities to add to the City of Norman Greenbelt System, please explain briefly below. (Any comments you feel will help the Commission understand your intent to develop the area.)
Signature of Applicant or Contact Person (<u>required</u>) :
