CITY OF NORMAN, OK STAFF REPORT

- ITEM TITLE: CONSIDERATION OF APPROVAL, ACCEPTANCE, REJECTION, AMENDMENT AND/OR POSTPONEMENT OF AMENDMENT NO. THREE TO CONTRACT K-1213-163: BY AND BETWEEN THE CITY OF NORMAN, OKLAHOMA AND GARVER, LLC, INCREASING THE CONTRACT AMOUNT BY \$1,880 FOR A REVISED CONTRACT AMOUNT OF \$129,986 TO PROVIDE ADDITIONAL CONSTRUCTION PHASE SERVICES FOR STREET WIDENING AND TRAFFIC SIGNAL IMPROVEMENTS AT THE 12TH AVENUE NE AND HIGH MEADOWS DRIVE INTERSECTION AS OUTLINED IN THE STAFF REPORT.

BACKGROUND:

The intersection of 12th Avenue NE and High Meadows Drive is a three legged intersection that was signalized in 1993, but without roadway improvements to provide a southbound left turn on 12th Avenue NE onto High Meadows Drive. The intersection is located north of Robinson Street with High Meadows Drive providing access to Eisenhower Elementary School and surrounding residential neighborhoods. The ever increasing volume of traffic and the resulting increase of collisions have exposed the need for a dedicated turn lane and new traffic signals at this intersection. An aerial photo of this area is included as Attachment 1.

Installing the southbound left turn lane requires widening of the existing four-lane section at the intersection. This project also provides the opportunity for the City to upgrade the signal interconnect system along 12th Avenue NE with fiber optic cable between Robinson Street and Rock Creek Road.

This section of 12th Avenue NE in Norman also serves as U.S. Highway 77. The Oklahoma Department of Transportation (ODOT) maintains jurisdiction over maintenance and improvements to the highway. However, 12th Avenue NE also serves as a major arterial street in Norman and intersects with many other city streets. While the City is responsible for the design of intersection signalization projects on 12th Avenue NE, future construction must be coordinated with ODOT.

On February 26, 2013, City Council approved Contract K-1213-163 with Garver, LLC, in the amount of \$38,900 to design the roadway and traffic signal modifications necessary to add a dedicated left turn lane and a southbound protected left turn arrow display. On November 25,

2015, City Council approved Resolution R-1415-59, which was later forwarded to ODOT, requesting federal funds to pay for 80% of the construction cost.

In the Resolution the City agreed to the terms and conditions of a federally funded project by stating its willingness to assume the responsibility for the preparation of engineering plans, the purchase of any additional right-of-way, the relocation of public utilities and funding of the local share of the construction cost.

On August 1, 2017, City Council held a study session to discuss the Griffin Park Sports Complex Master Plan, which includes additional improvements to the adjacent transportation network.

DISCUSSION:

One of the transportation network improvements recommendations in the Griffin Park Sports Complex Master Plan calls for a new access point off of 12th Avenue NE (see Attachment 2). This new access affects the on-going design of the improvements at the High Meadows intersection.

City staff worked with the firm (PDG) that is developing the Griffin Park Sports Complex Plan to identify the safest and most appropriate access point while considering the restrictions for arterial roadways (of which 12th Avenue NE is one) outlined in the City's Engineering Design Criteria. This discussion led to the identification of the most appropriate and safest access point, which takes advantage of the traffic signal at the High Meadows Drive intersection adding a fourth leg to the existing three-legged intersection.

In order to accommodate the new access, 12th Avenue NE will need to be widened south of High Meadows Drive to create a northbound left turn lane. Additionally, the traffic signal will need to be further modified to include a fourth pole and mast arm for eastbound traffic exiting Griffin Park. Including this work as part of the ongoing project will save money in the long run, minimize the traffic congestion associated with road construction and avoid having to reconstruct parts of the roadway, while at the same time leveraging federal funds to complete the work.

On September 26, 2017, City Council approved Amendment One with Garver, LLC, in the amount of \$79,975 to provide engineering services to develop construction plans for street widening improvements and replacement of traffic signals at 12th Avenue NE and High Meadows Drive intersection. On March 14, 2023, City Council approved Amendment No. Two with Garver, LLC, in the amount of \$9,231 for additional engineering service to complete the design for the modification to the 12th Avenue NE intersection with High Meadows Drive.

Garver, LLC proposes a \$1,880 amendment to contract K-1213-163 to provide additional construction phase services for the modifications to the 12th Avenue NE and High Meadows Drive intersection (see Contract Amendment 3 in Attachment 3, as well as Attachments 3A and 3B). The services will include construction phase services which were not thought to be necessary when ODOT was to be administering the project construction when K-1213-163 was negotiated.

RECOMMENDATION:

Staff recommends approval of Amendment 3 to Contract K-1213-163 with Garver, LLC, (a regional firm with offices in Norman) in the amount of \$1,880, for additional construction phase services associated with the construction of the modification to 12th Avenue NE intersection with and High Meadows Drive.
