EXHIBITS

- A. Legal Description
- B. Site Development Plan
- C. Allowable Uses

I. INTRODUCTION

This Simple Planned Unit Development (the “**SPUD**”) is being submitted for the property located at 765 Jenkins Avenue, as more particularly described on **Exhibit A** (the “**Property**”). This SPUD seeks to rezone the Property from the existing R-3, Multi-Family Dwelling designation to allow for the development of a three-story mixed-use structure on the Property with allowances for retail uses on the ground floor and multi-family residential units in the upper stories.

II. PROPERTY DESCRIPTIONS; EXISTING CONDITIONS

A. Location

The Property is located at 765 Jenkins Avenue, which is near the intersection of W Boyd Street and Jenkins Avenue.

B. Existing Land Use and Zoning

The existing zoning is R-3, Multi-Family Dwelling, and the existing NORMAN 2025 Land Use Plan designation is Low Density Residential. This proposal also seeks to amend the NORMAN 2025 Land Use Plan designation to Mixed-Use.

C. Elevation and Topography

The Property is improved with an existing residential structure and the topography of the Property is relatively flat.

D. Utility Services

The necessary utility services for this project are already located on or near the Property.

E. Fire Protection Services

Fire protection services shall be provided in accordance with all applicable City of Norman regulations for such services.

F. Traffic Circulation and Access

Traffic circulation and access to the Property shall be allowed in the manner shown on the attached Site Development Plan.

III. DEVELOPMENT PLAN AND DESIGN CONCEPT

A. Uses Permitted

This SPUD will allow for the development of a mixed-use structure on the Property with allowances for retail uses on the ground floor and multi-family residential units in the upper stories. A complete list of allowable uses on the Property is attached as **Exhibit C**.

B. Site Plan

The Property shall be developed as depicted on the Site Development Plan, attached hereto as **Exhibit B**, subject to final design development and the changes allowed by Section 22.420.05(11) of the City of Norman's SPUD Ordinance, as may be amended from time to time.

The following shall be the required building setbacks:

- Front: 18 feet
- Side:
 - North: 5 feet
 - South Foundation: 10 feet
 - South Building Overhang: 5 feet
- Rear: 40 feet

C. Traffic access/circulation/sidewalks

Traffic circulation and access to the Property shall be allowed in the manner shown on the attached Site Development Plan.

D. Open Space

The impervious area for the Property shall not exceed 66%. The applicant will also endeavor to utilize low impact development techniques ("LIDs") and best management practices ("BMPs") in the development of the Property to further assist in drainage management on site. The locations and types of LIDs and BMPs will be determined during site development. Greenspace will be provided in the locations shown on the Site Development Plan, depicted by the hatching. A minimum of two (2) trees of two-inch caliper or greater will be planted and maintained in the front yard area of the Property. Additional landscaping will be utilized on site, such as, by way of example, flower beds, bushes, or shrubbery, in locations and types to be finalized during final site development. Landscaped flower beds and/or gardens can, but are not required to, be utilized on the rooftop open space.

E. Signage

All signage shall comply with the applicable requirements contained in the City of Norman Sign Code, Chapter 18, for the commercial uses, as amended from time to time.

F. Lighting

All new exterior lighting shall comply with the applicable provisions of the City of Norman's Commercial Outdoor Lighting Standards, as the same may be amended from time to time.

G. Height

The maximum height for the mixed-use structure shall be three (3) stories, with a useable rooftop space.

H. Parking

The Property shall comply with Norman's applicable parking ordinances, as amended from time to time.

I. Exterior Materials

The exterior materials of the building to be constructed on the Property may be brick, glass, stone, synthetic stone, stucco, EIFS, masonry, metal accents, composition shingles, and any combination thereof.

J. Fencing

Fencing shall not be required on the Property. The absence of perimeter fencing will assist vehicular and pedestrian ingress and egress to the Property from the sidewalk and alley. Additionally, this request is consistent with other nearby commercial uses abutting residential lots on this street.

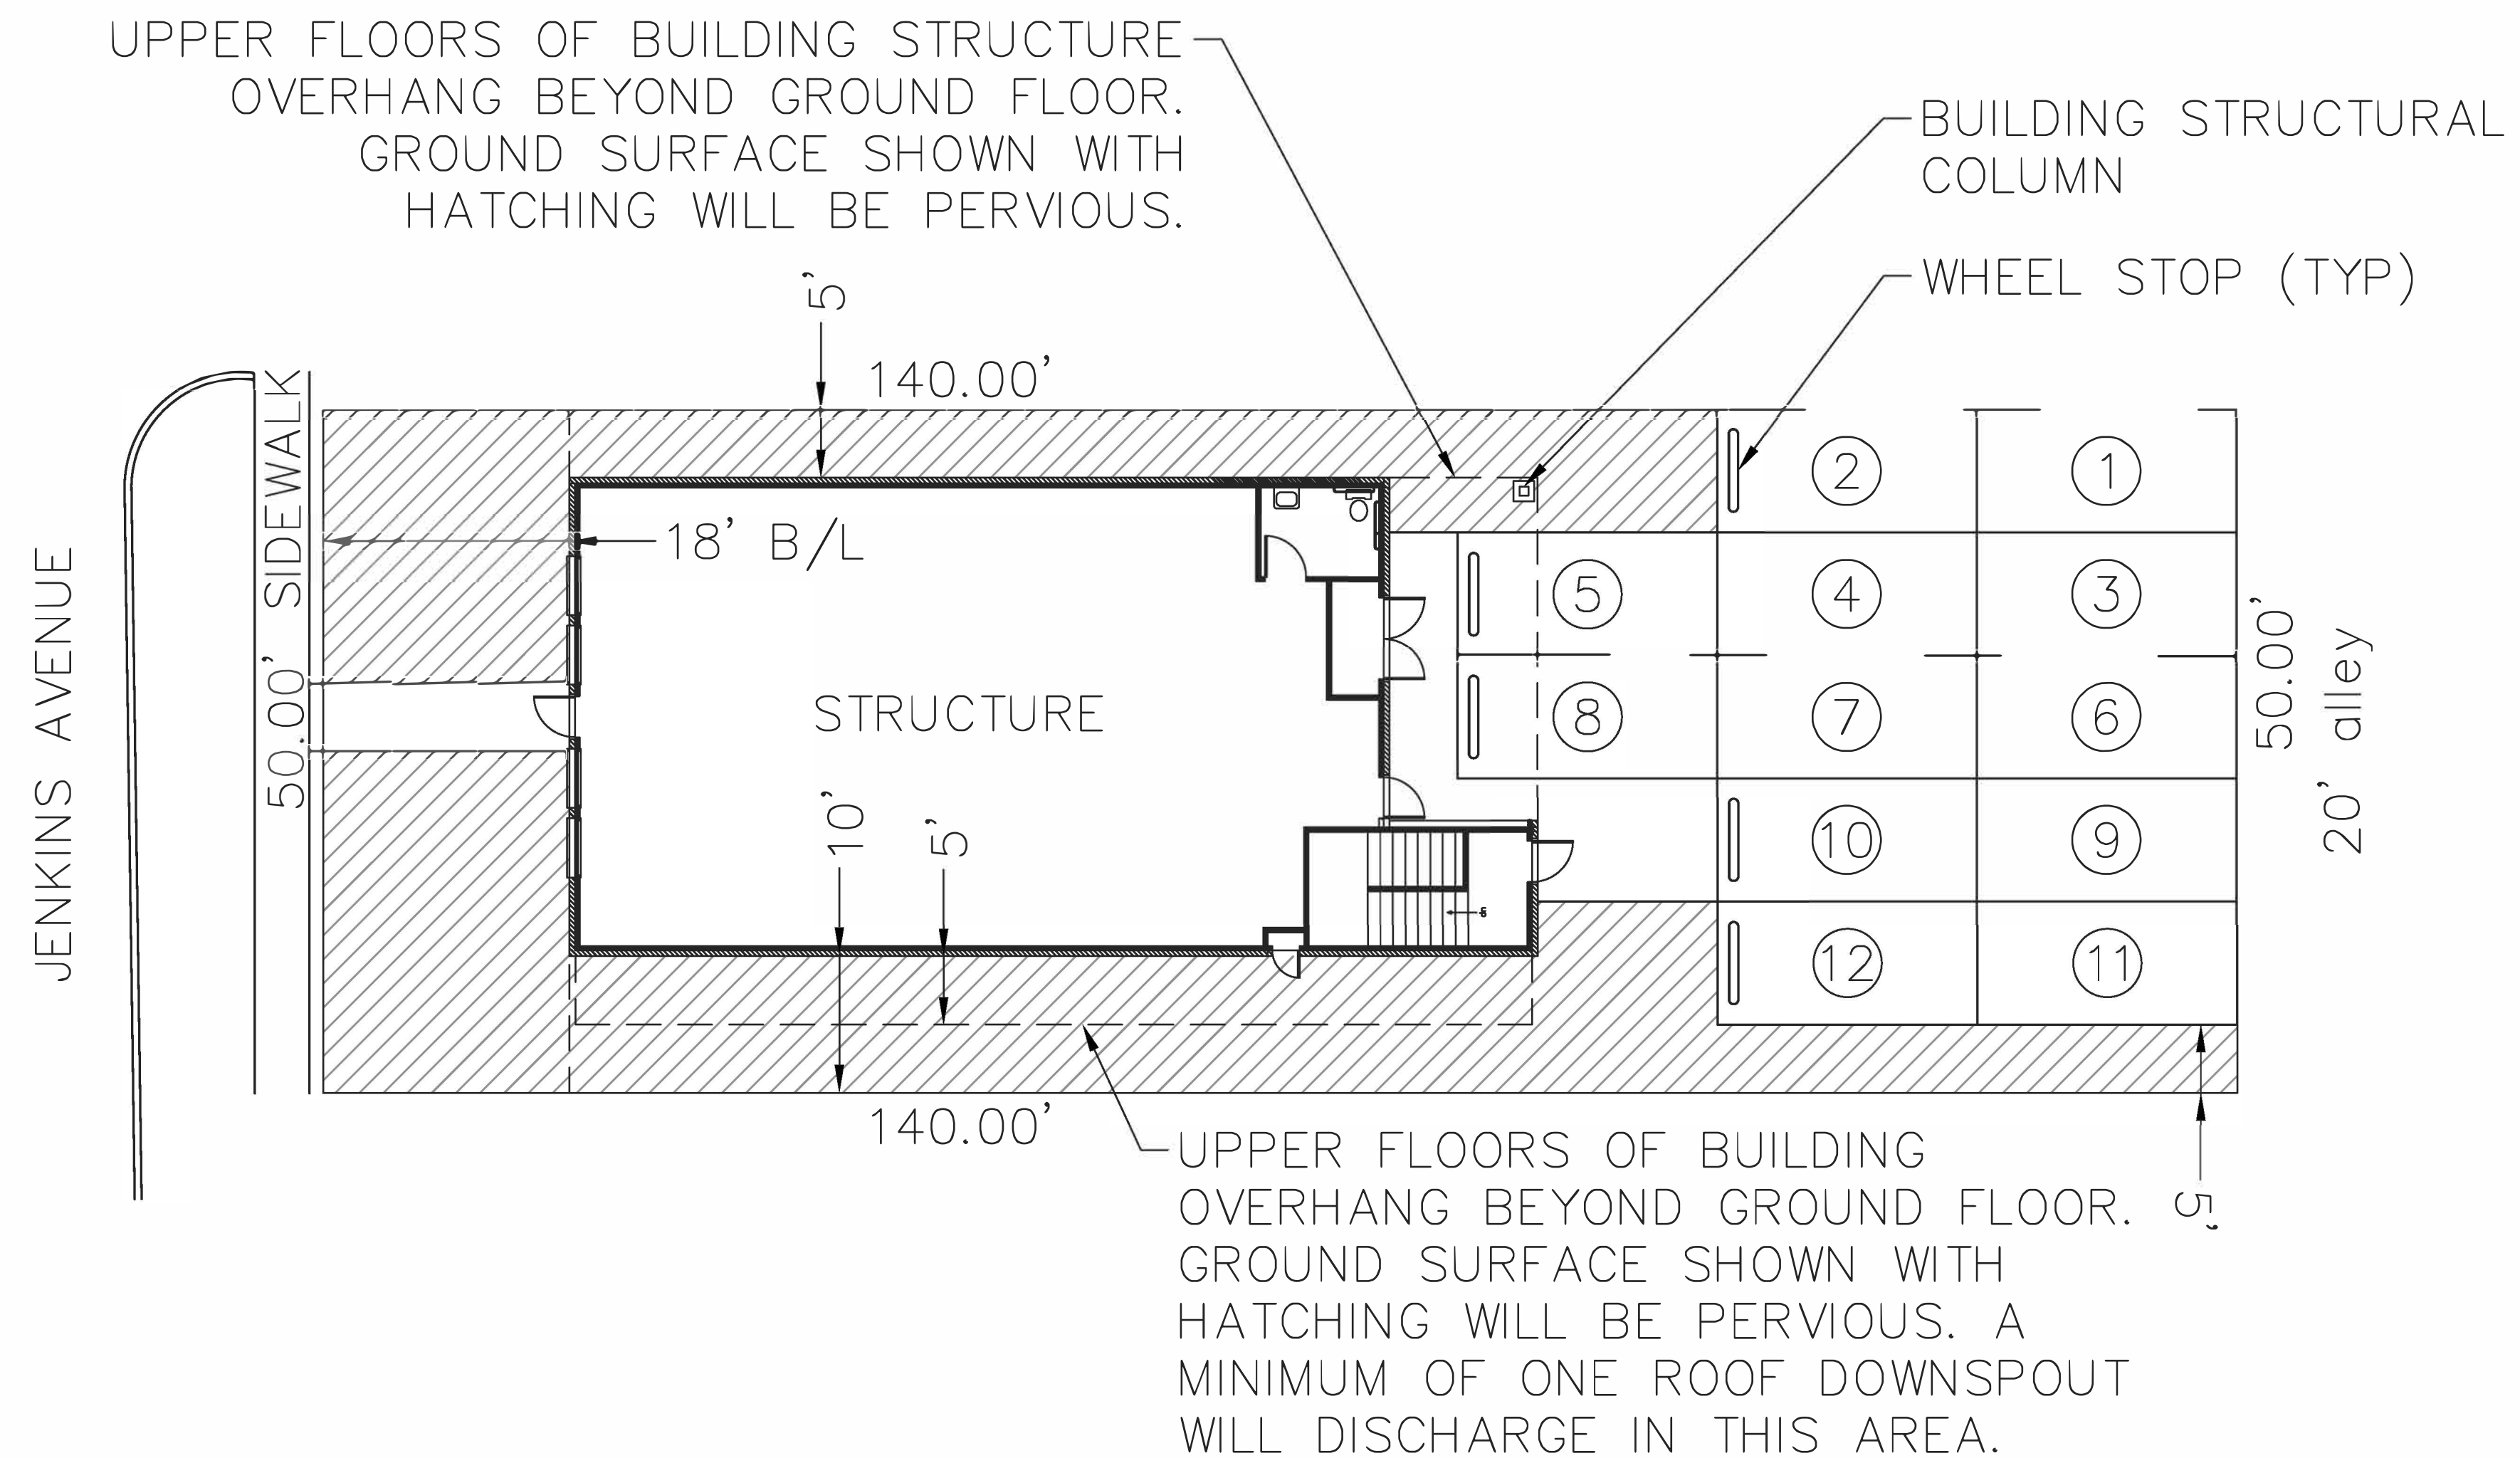

EXHIBIT A

Legal Description of the Property

Lots Forty-Eight (48) and Forty-Nine (49), in Block Four (4), of STATE UNIVERSITY ADDITION, to the City of Norman, Cleveland County, Oklahoma, according to the recorded plat thereof.
