You have an award for \$188,000.00 that is in phase 2 of the 2024 SLCGP award. It is in the last step of approval, meaning we are just waiting for it to be approved in the FEMA GO software. You also have an award for \$142,000.00 that is in phase 3 of the SLCGP 2024 award that is currently with CISA for review and approval. We expect it will take another few weeks before we get that approval in. Please let me know if you have any questions.

Just an email I think to confirm that we were approved and moved forward to the next process. If attaching the meeting minutes is easier though just bounce me that. Thank you SO much!

What kind of documentation do you need? I can send meeting minutes or just an email from me.

Hi Hannah,

I wanted to also ask if there is a way to get details following the meeting in August for example where we have been approved for an Award but awaiting final approval and funding terms? Meaning we have the one in Phase II you mentioned for \$188,000 on backup contingency we know will be coming soon and another for \$142,000 for the zero trust (firewalls) that is in Phase III you mentioned and also awaiting final approval.

I am just looking at ways with our City Clerk and Finance to at least let them know further in advance that we have these items coming and possibly getting a process in place for the City Manager to approve the paperwork ahead of Council.

If we have details or a documented approval following the meetings when the projects are reviewed maybe, or is there something you do for any others that may be helping with agenda times? I know those vary of course all across the State, just looking for ideas.

Thanks so much!

Kari
