  - (b) The Property Maintenance Code shall not become effective until at least three (3) copies, including modifications prescribed in this section, have been filed in the office of the City Clerk.
  - (c) The following sections of the IPMC are hereby amended, added, deleted, or substituted as noted:
    - (1) 101.1 Title [Amended]. These regulations shall be known as the *Property Maintenance Code* of the City of Norman, hereinafter referred to as "this code."

    - (3) 103.1 General [Amended]. Code Compliance is hereby created and the official in charge thereof shall be known as the *code official*.
    - (4) 103.5 Fees [Deleted]. IPMC Section 103.5 is hereby deleted without substitution.
    - (5) 107.3 Method of service [Amended]. Such notice prescribed in Section 107.1 shall be deemed properly served if the notice is delivered personally or mailed to either the property owner, owner's authorized agent, or mortgage holder. If the notice is mailed, the City shall obtain a receipt of mailing from the postal service indicating the date of mailing and the name and address of the recipient. Additionally, the code official shall post a Code Violation Notice on the affected property.
    - (6) SECTION 111 MEANS OF APPEAL [Deleted]. IPMC Section III is hereby deleted in favor of the provisions of Section 2-203 of the Code of the City of Norman.

existence prior to March 1973. In order for such parking areas to maintain their legal non-conforming status, the following procedures shall be followed:

1. Gravel surfaces must be kept substantially free of any grass or weeds.
2. Gravel surfaces may not be expanded beyond established borders. The property owner shall ensure that a clear line of demarcation exists at the edges of the gravel drive that is obvious and can be visually verified from the street or sidewalk.
4. In order to comply with the requirement that parking areas be substantially mud- and dust-free, gravel shall be maintained so that at least three (3) inches of material covers the entire parking and driveway area.

If an owner is violating any provision of this section, a notice of violation will be sent. Failure to correct the violation within the prescribed time frame will result in the filing of charges. Upon conviction or a plea of nolo contendere, the property will lose its non-conforming status as a gravel parking surface. If the owner fails to file a complete application for a special exception for gravel surfacing from the Board of Adjustment within ten (10) days of that court decision, the loss of that non-conforming status is considered final. If a special exception is not granted by the Board of Adjustment, the gravel parking area and driveway must be removed or brought into compliance with the current ordinance within one hundred eighty (180) days.

- (9) 302.4 Weeds [Amended]. *Premises and exterior property* shall be maintained free from weeds or plant growth in excess of 12 inches. Noxious weeds shall be prohibited. Weeds shall be defined as all grasses, annual plants and vegetation, other than trees or shrubs provided; however, this term shall not include cultivated flowers and gardens, nor areas designated as Water Quality Protection Zone (WQPZ).

Upon failure of the *owner* or agent having charge of a property to cut and destroy weeds after service of a notice of violation, they shall be subject to prosecution in accordance with Section 106.3 and as prescribed by the authority having jurisdiction. Upon failure to comply with the notice of violation, any duly authorized employee of the jurisdiction or contractor hired by the jurisdiction shall be authorized to enter upon the property in violation and cut and destroy the weeds growing thereon, and the costs of such removal shall be paid by the *owner* or agent responsible for the property.

- (10) 303.2 Enclosures [Amended]. Private swimming pools, hot tubs and spas, containing water more than 24 inches (610 mm) in depth shall be completely surrounded by a fence or barrier not less than 48 inches (1219 mm) in height above the finished ground level measured on the side of the barrier away from the pool. Gates and doors in such barriers shall be self-closing and self-latching. Where the self-latching device is less than 54 inches (1372 mm) above the bottom of the gate, the release mechanism shall be located on the pool side of the gate. Self-closing and self-latching gates shall be maintained such that the gate will positively close and latch when released from an open position. No existing pool enclosure shall be removed, replaced or changed in a manner that reduces its effectiveness as a safety barrier.

Exception: Screens shall not be required where other *approved* means, such as air curtains or insect repellent fans, are employed.
