

RESTROOM FACILITIES

ANDREWS PARK & TRANSIT CENTER

OVERSITE COMMITTEE

AUGUST 14, 2025

NORMAN TRANSIT CENTER

NORMAN TRANSIT CENTER

- The Norman Transit Center opened in October 2023.
- Wastewater lines replaced and grinder pump installed later October to early December 2023.
 - Decay in iron wastewater pipes led to rusting and flaking, causing debris to be caught which resulted in flooding.
- Issues with the restroom continued, mostly revolving around items (clothing, etc.) getting caught in the pipe and causing flooding.
- Facility Maintenance installed a new type of toilet on June 2025.
- Currently, the lobby and restroom are closed due to the lobby door being inoperable. The City is awaiting a vendor to make a repair.
- When open, the restroom is available for public use from 10am-6pm. This coincides with when security, provided by a third-party contractor through our EMBARK contract, is on site.

ANDREWS PARK

- Andrews Park Building was renovated to open bathrooms in 1973.
- Andrews Park restroom was closed in May 2022.
- Temporary Restrooms were placed after closer of Andrews Park Restrooms. Within 6 months Parks could not find a vendor that would leave restrooms in Andrews Park on a semi-permanent basis.
- Currently has an 4-inch iron pipe. Current standard would be 6-inch PVC pipe with grinder pump.
- Andrews Park Restrooms are not up to ADA standards.
- Line of site issues for Andrews Park Restrooms.
- Vandalism of restrooms
- Public Safety and Employee Safety
