Educational Background*

PhD Walden University in social change 2017 Stover & Associates Government funding/how to procure Government funds Certified 2022 Schoolcraft College Grant Writing 2016 Certificate Schoolcraft College Java Development Writing 2016 Certificate MBA Lawrence Tech 2015 Bachelor of Science Business and Technology Lawrence Tech 2012 ABA Oakland Community College 2008

Please describe your professional qualifications, skills and/or work experience, and how you would use these to benefit the boards and/or commissions for which you are applying.*

I have worked for very large corporations and Government agencies since a young age. My family members have been delegates in other cities. My grandmother was the treasurer for the Naval League of Detroit. I work for a part of Government from my home/tech work right now. I worked for GM which is as big as the Government. I feel I could assist as I know the ins and outs of grants/contracts/bids and more related to procurement of funds within the Government. I feel I would be assistive in a department such as audit or financial needs, or since I went to school with engineers/scientists and do know some tech I could assist in another department. I saw you might need some help with either the planning board, or zoning or even the water department. I have met Mr. Nash, and knew the Oakland County planners under L Brooks when in office. If my connection with Government is a concern I have worked at each level, City, County, State, and now Federal. My only issue might be in the week as I do work during the week to 4pm. However, I can take leave days and so forth if there were a pressing issue.

Please list any community groups with which you are currently or have previously been active and describe your role.*

I have been and am an alumni of Phi Theta Kappa Honor Society. I have been a volunteer with Junior League of Detroit.

What motivated you to apply to serve on a board or commission, and why did you select the boards/commissions that you did?*

An interest in serving the community. I would serve on any board where my skills could be utilized. I feel my skills are useful for economic and other ie business/tech/planning/research/treasury etc, and related needs.

If appointed, what do you hope to accomplish during your term? What do you hope to learn?*

I hope to bring a new outlook on certain projects. I feel that Novi is a great city but might benefit from fresh ideas, new companies coming in and change in a good way.

What do you think the City is doing well or could be doing differently when you think about the areas of responsibility for the boards and/or commissions for which you are applying?

I like the parks and fun things to do in Novi. I enjoyed the Novi lights experience with the tree lighting and other fun events surrounding that. I feel whoever your event planner is they do a nice job. Also, you have some lovely senior programs according to my mother. The only thing to be done differently with your boards/commissions is a little more understanding of how these decisions do affect certain neighborhoods. I think with a little extra help some issues could be improved.

Is there anything else you would for Council to be aware of, or know about you?

I believe in education, in community, and in Government. I have pledged much of my life to Government, been vetted, fingerprinted, back-grounded and feel that it is for the greater good. I have often worked with differing factions of Government and in the community and again always for the betterment of society. In free time I enjoy nature, art, literature, and music.
