RE: Howell's Walled Lake Subdivision Watermain Replacement & Street Rehabilitation Project

Dear Valued Resident:

We hope you are enjoying the mild winter we are having. As you may already be aware, the City of Novi completed an overhaul of Howell's Walled Lake Subdivision's storm sewer system in 2021. We want to thank everyone for their patience during that project.

This construction year, the City of Novi will be replacing problem areas of the water main, lining existing sanitary sewers and repaving Martin Avenue, Wainright Street, Linhart Street and Paramount Street.

Unfortunately, due to the availability of water main materials, we are unable to give you a scheduled start date at this time. However, contractors will send out flyers in advance of any improvements starting on your street.

We understand the impact this work may have on residents. To ensure residents receive proper communication and customer service, the City of Novi will initiate an e-newsletter to communicate with you regularly. We will provide project updates as warranted and try our best to keep you informed throughout the project.

To join the e-news group, we simply ask you to email **communityrelations@cityofnovi.org** with the subject **Howell's Walled Lake Subdivision**. Please include your name and physical address in the email.

We hope this new communication avenue will help you understand the project process and have insight into upcoming changes resulting from the project.

If you have any questions regarding this project, please contact Community Relations at communityrelations@cityofnovi.org or 248.735.5628.

Again, thank you for your patience and understanding. We look forward to keeping you updated.

Sincerely,

Sheryl Walsh-Molloy
Director of Communications
