

CITY OF NOVI CITY COUNCIL
MAY 19, 2025

SUBJECT: Approval of the **SECOND READING** of Text Amendment 18.305 to allow increased capacity in child care centers per the conditions stated in the amendment.

SUBMITTING DEPARTMENT: Community Development, Planning

KEY HIGHLIGHTS:

- Following discussions with a day care owner who expressed interest in expanding capacity within an existing facility, Staff prepared ordinance amendments to address the concerns.
- The draft ordinance proposes new parameters to allow up to 75 children in day care centers on residential parcels at least 1.5 acres in size, located at the intersection of two streets, subject to minimum building setback requirements, and subject to Special Land Use consideration by the Planning Commission.
- If approved, the ordinance will apply to all eligible properties in Novi. The attached map shows 14 potential properties that may benefit from the additional capacity permitted of up to 75 children.
- Following the April 7, 2025 City Council review of the draft ordinance amendment, the Ordinance Review Committee met to further discuss the proposed ordinance language. The recommendation of the Committee was to bring the amendments back to the City Council for First Reading, consistent with the Planning Commission's recommendations for Child Care centers, but to maintain the existing standards for the number of people cared for in Adult Day Care centers.
- City Council approved the First Reading of the ordinance on May 5, 2025.

BACKGROUND INFORMATION:

Planning staff met with the Little Seeds Day Care owner, Angie Altaii, who has expressed an interest in increasing the number of children cared for in the existing facility at the northeast corner of Ten Mile Road and Wixom Road. She indicated that there is a great demand for day care services in the region and that her day care business has space available within the existing building to expand enrollment. The attached narrative was provided by Ms. Altaii to the City to further explain the need for day care facilities in Novi.

Ms. Altaii wishes to increase the enrollment of the Little Seeds Day Care up to 75 children, while the current ordinance allows a maximum of 50 children in similarly situated day care centers (where the property fronts on a major thoroughfare and is located within and is surrounded by single family residential zoning districts).

Staff explained that the ordinance provides limitations on the number of children to be cared for in day care businesses in residential districts and that the standards of the ordinance cover properties throughout the City. **The best means to address the property owner's request would be to draft an ordinance amendment to allow an increase in the number of children served at new or existing facilities throughout the city.** The intent of this proposed amendment is to allow **greater flexibility for childcare providers** to meet the growing demand for early childhood development programs by expanding their enrollment, under specific conditions.

Seeing an Increased Demand for Child Care Services

The proposed ordinance amendment is also supported by the demonstrated need for additional daycare facilities across the state. The 2024 Michigan Economic Development Corporation's Childcare Readiness Toolkit, which recognizes that a robust childcare system that meets the needs of all families requiring childcare services is an economic development issue. Additionally, Oakland County Public Schools has asked for partners to provide GSRP (Great Start to Readiness Program) preschools within the county. This partnership is important to the Novi community – which, as of last fiscal year, had only 1 other GSRP partner. The American Planning Association has presented information that demonstrates the need for additional daycare facilities and encourages its members to consider ordinance updates to allow daycare facilities to expand.

Existing Ordinance Standards

Ordinance Sections 4.12.1.B and 4.12.1.C allow day care centers and adult day care centers in single-family residential zoning districts, under certain conditions. Day care centers are subject to Special Land Use approval by the Planning Commission for locations in the Single-Family Residential Districts, including the RA, R-1, R-2, R-3 and R-4 Districts.

Section 4.12.1.B currently allows commercial day care centers and adult day care centers (those not located in a single-family home) on single family residential parcels at least 1 acre in size, and when abutting a major thoroughfare. The ordinance provides limitations on the number of people being cared for – no more than 50 children in a day care center, and no more than 25 adults in an adult day care center.

Section 4.12.1.C currently allows a greater number of people being cared for in day care centers when the single-family parcel abuts non-residential uses: up to 120 children, and no more than 60 adults. This section of the ordinance limits those residential parcels eligible for consideration for a new day care center to parcels that abut certain non-residential districts. The intent of this ordinance provision is to allow for the larger day care facilities on residential parcels that abut non-residential uses, because the day care facility can provide a transitional use between single family residential properties and commercial properties.

Novi's Zoning Ordinance allows day care facilities in several different situations, with the two bullet points in italics that are under review for change at this time:

- Family Day Care home: 1-6 children in a private home, no overnight care
- Group Day Care home: 7-12 children in a private home, no overnight care
- *Day Care Center: 1-50 children in residential districts (if parcel abuts certain non-residential districts up to 120 children). Not a private home, no overnight care.*
- *Adult Day Care Center: 1-25 functionally impaired people for facilities in residential districts (unless parcel abuts certain non-residential districts, up to 60 persons).*
- Other districts accommodate Day Care Center and Adult Day Care Centers in excess of these numbers, with no limits on the numbers in the B-2, B-3, OST, TC, TC-1 and EXO Overlay Districts as a permitted use, and in the OS-1, OSC, and PSLR Districts as a Special Land Use.

Proposed Ordinance Amendment

The suggested ordinance amendment **proposes a third option to the Child Care Center options that would allow up to 75 children in child care centers on residential parcels:**

- At least 1.5 acres in size with at least 200 feet of frontage on a major thoroughfare,
- Located at the intersection of a major thoroughfare and another street, and
- Subject to minimum building setbacks to the property lines to ensure adequate setback from other residential uses.

To further ensure that any adjacent existing single family residential properties are adequately separated from the proposed child care center, any buildings shall be setback from the property lines a distance that is equal to what is required in the zoning district, but in no case, less than 25 feet from any property line. Special Land Use consideration by the Planning Commission and the required public hearing would be required for this option, as it applies to all commercial day care facilities proposed in residential districts. These changes are found in the attached new Section C.

Other minor changes and streamlining of the text are proposed for the relevant sections, as well as minor update to the day care standards in the NCC District.

Previous Review and Action

The Planning Commission held a Public Hearing on the Daycare Text Amendment 18.305 on March 12, 2025 and recommended approval to the City Council. The Planning Commission meeting minutes are attached.

The City Council reviewed the draft ordinance at the April 7th meeting, and provided a number of comments and questions.

The Ordinance Review Committee met on April 21st, and recommended approval of the Child Care Center ordinance amendments, but indicated that the number of people cared for in the Adult Day Care Center sections should be left as currently written.

The City Council approved the First Reading of the ordinance at the May 5, 2025 meeting.

RECOMMENDED ACTION: Approval of Text Amendment 18.305 to amend various sections of the Zoning Ordinance to allow increased accommodation in child care centers subject to certain standards and conditions, along with other minor changes, subject to further modifications as determined necessary by the City Manager's Office or City Attorney's Office. **SECOND READING**

This motion is made because the ordinance amendment allows greater flexibility for childcare providers to meet the growing demand for early childhood development programs by expanding their enrollment, subject to certain conditions, and because the amendment further streamlines and clarifies the ordinance standards.
