What motivated you to apply to serve on a board or commission, and why did you select the boards/commissions that you did?*

Living in Novi for almost 14 years now and thought I should give back this community as much as I can based on my experience and availability of time. Touching people's heart and improving people's experience in life is the key to have a rewarding life. I feel it at my current role in my organization now and want to experience the same closer to my home.

If appointed, what do you hope to accomplish during your term? What do you hope to learn?*

Want to help with my technical background and experience. Not sure what I want to accomplish but would like to find the opportunity and work to make it better.

What do you think the City is doing well or could be doing differently when you think about the areas of responsibility for the boards and/or commissions for which you are applying?

I think Novi City is doing really good in all aspects of it's duties. Things can always be better and I want to take part in it. No personal agenda/ambition at this time, more to learn how the city works and how can I help.

Is there anything else you would for Council to be aware of, or know about you?

I want to help and learn.
