Employed by

Retired

For which board or commission are you re-applying?

Planning Commission

Why would you like to serve?

I believe my experience in global product development, national distribution sales, and department management - along with an education in economics and business administration - have taught me to be a critical thinker, open-minded, and results-driven. I am excited about the continued successful growth of our city and look forward to the opportunity to continue being a valuable member and contributor in it's planning and development.

What are you proud of accomplishing during your term?

In serving these 4 past years we have had many public hearings - several with considerable community involvement. The comments from members of the community are very important and vital to the success of the city planning and growth. I am proud to have, and do take, every comment and suggestion offered into consideration as we move forward with the planning proposals placed before the commission.

If reappointed, what do you hope to accomplish in your next term?

During my next term, in general, I hope to be a valuable member and contributor to the board and in it's planning and development activities for the city. I hope to come away with a continued better understanding how the process is done and with an earned sense of accomplishment.

What do you want Council to know about your board or commission, and how can they assist your board or commission with its goals?

On two occasions (during my two terms), the planning department, with the assistance of city legal council, held a training class with the planning commission and zoning board of appeals. The goal was to outline the responsibilities and expectations of each board as a function of the city. This training was excellent and I believe can be improved by also including the city

council members so as to provide a cohesive understanding of the overall process of planning within our great city.

Is there anything else you would like for Council to know about you and/or your work on the board or commission?

The proper development of the City of Novi is important to all of us. By continuing to serve on the planning commission, I hope to have the opportunity to participate in a process that continues to move Novi forward - both for the residences as well as the businesses within our community.
