For which board or commission are you re-applying?

Planning Commission

Why would you like to serve?

I have enjoyed the honor and responsibility of being on the Planning Commission for almost 5 years. It is important work, and I always prepare for each Planning Commission meeting. I would like to continue to represent the residents and businesses in Novi for one more term.

What are you proud of accomplishing during your term?

In almost 4 years I have only missed Planning Commission meetings. I have attended training meetings to help me understand the role and duties of a commissioner. I always research each project and make an informed decision about what is in the best interest of the majority of citizens, business owners, and the long term health of the City of Novi.

If reappointed, what do you hope to accomplish in your next term?

I will continue to research every project that comes before the Planning Commission so that I am prepared to make the best decision. I will continue to request to serve on the Novi Mobility committee and the CIP committee.

What do you want Council to know about your board or commission, and how can they assist your board or commission with its goals?

I believe that all of the parts of our City government are working cohesively and collaboratively. If anything, I look forward to interaction with the City Council so that they can let the Planning Commission know how WE can help THEM.

Is there anything else you would like for Council to know about you and/or your work on the board or commission?

Several Council members have told me that they value my research and detailed, prepared comments on projects that come before the Planning Commission when these projects are then

referred to the Council. Being on the Planning Commission is intellectually stimulating for me, and I consider my involvement on the Planning Commission to be important for the future of Novi. It is my way to give back to the City that I have called home for almost 50 years.
