Please describe your professional qualifications, skills and/or work experience, and how you would use these to benefit the boards and/or commissions for which you are applying.*

I have been in leadership roles since I was young—captain on high school sports teams, United States Marines, retail, and sales management. These roles allowed me to do a lot of training in dealing with people. I work hard to listen and understand others' points of view. I keep the goal in mind and work with everyone to accomplish it.

Please list any community groups with which you are currently or have previously been active and describe your role.*

City of Novi - Community Emergency Response Team 2008 - present: team member City of Novi - Volunteers in Public Safety - VIPS - 2016 - present: volunteer officer

What motivated you to apply to serve on a board or commission, and why did you select the boards/commissions that you did?*

I see the corridor as an oasis for the community. It should be beaming with businesses catering to the masses and showcasing the pride of the city's people through beautification and interests. It should take advantage of current developments and attract new companies and interests. With new transportation and infrastructure, the corridor should flourish.

If appointed, what do you hope to accomplish during your term? What do you hope to learn?*

Being part of a diverse team that brings to fruition many ideas that complete the objective is what I hope to accomplish. I have to learn about the tax potential (TIF) and work with other entities that can help the project.

What do you think the City is doing well or could be doing differently when you think about the areas of responsibility for the boards and/or commissions for which you are applying?

The city offers so much: bike and hiking trails, sidewalks everywhere, commerce that brings people to the city and keeps them here, and many playing fields catering to different sports and ethnicities. Getting around Novi should not be considered a task but an exciting discovery trip. Navigating the corridor should continue to improve.

Is there anything else you would for Council to be aware of, or know about you?

I love this city, and I love to make a difference for people. I enjoy being part of a team, as can be seen with my participation in CERT and VIPS. I will work hard, garner ideas from many, and achieve the objective, even if the purpose continues to change.
