

CITY OF NOVI CITY COUNCIL
JUNE 26, 2023

SUBJECT: Adoption of Resolution approving the City's Transportation Asset Management Plan (TAMP).

SUBMITTING DEPARTMENT: Department of Public Works, Engineering Division

BACKGROUND INFORMATION:

Public Act 51 governs the distribution of transportation funds in Michigan. A Transportation Asset Management Council (TAMC) was established to promote better asset management practices among local road agencies and to ensure effective investment of Act 51 funds in Michigan roads and bridges. In 2018, Public Act 325 amended Public Act 51 to require road agencies responsible for 100 or more certified centerline mile of public roads to submit asset management plans to the TAMC. The City, whose certified Act 51 mileage was 195.69 miles as of July 1, 2022, reports its transportation projects and associated costs to the TAMC annually. Per the PA 325 amendment, the City submitted its Transportation Asset Management Plan (TAMP) to the TAMC earlier this year for review. The only element needed to be in compliance with the state is proof of acceptance by the City Council, which this resolution will satisfy.

Engineering consultant, OHM Advisors, assisted staff with completing asset management plans for the City's pavement, bridges, culverts, and signals. The four categories were combined into the TAMP that was submitted to the TAMC. Please see the attached TAMP for more details regarding the City's asset management plans.

RECOMMENDED ACTION: Adoption of Resolution approving the City's Transportation Asset Management Plan (TAMP).
