Mayor and Council –

FYI on the current status of the construction on I-96. Good news, all ramps are now open. MDOT representatives have committed to attend a Council meeting in March.

- Victor

MDOT reports that Eastbound and Westbound I-96 are now back open to three lanes. All ramps have been reopened as well. This will be the wintertime configuration, and, in the spring, traffic will be shifted over to the newly constructed eastbound side as they work on westbound. More information to come on the spring construction as we near closer.

Still down to one lane through the eastbound connector to I-696, until the I-696 traffic is shifted back over to its reopened wintertime configuration which is expected soon.

Have a Happy Holidays!
