What motivated you to apply to serve on a board or commission, and why did you select the boards/commissions that you did?*

As an active community member with plans of staying in Novi, I am concerned about the future of our city as continue to grow. I feel my skills and experience would be valuable in the oversight and decision making responsibilities of the boards/commissions I have selected.

If appointed, what do you hope to accomplish during your term? What do you hope to learn?*

I look forward to being an active, contributing member using my experiences, skills and knowledge to help the board/commission achieve its goals. This work would also help enhance my understanding of the city direction addressing the changing needs of the community.

What do you think the City is doing well or could be doing differently when you think about the areas of responsibility for the boards and/or commissions for which you are applying?

As a long term resident, I feel the boards/commissions have done a consistent job of ensuring the community grows and supports all citizens, from various cultures as well as enticing companies to operate here and locate manufacturing, support offices and headquarters in the city. I would like to see the boards/commissions work on improving communication to the community at large regarding direction, improvements and how the city is addressing problems that are important to the community.

Is there anything else you would for Council to be aware of, or know about you?

I feel that my experience, skills and commitment to our city would benefit these boards/commissions as we continue to strive to be a great place to live, operate and lead from in the metro region. Thank you for your consideration.
