For which board or commission are you re-applying?

Construction Board of Appeals

Why would you like to serve?

To continue the 32 years of service to the City of Novi, showing consistency and legacy of decisions for those choosing to appeal decisions made by the building department. We are influenced by the City staff, and Fire Department as needed, but through the vetting process, have maintained a solid membership who have construction, design, and enforcement experience with the present members of the Board that I hop remain.

What are you proud of accomplishing during your term?

Term or terms? many cases are mundane, however, periodically cases come across that require the education and application of rules that citizens do not fathom. Rules that evaluate firefighting equipment, and hose stream distances, exiting, and inconveniences the public will not tolerate. Hard to believe, but some folks are too hardheaded to realize that parking in a fire lane could prevent their loved ones from being saved in a disaster. We tend to follow the need to continue the protection of the health, safety, and welfare of the public, whether they live here or not.

If reappointed, what do you hope to accomplish in your next term?

See above.

What do you want Council to know about your board or commission, and how can they assist your board or commission with its goals?

Double our salary!

Is there anything else you would like for Council to know about you and/or your work on the board or commission?

I believe this board has been a steppingstone for other non-qualified candidates to move to

other standing committees. Their qualifications are sub-standard and should not be in our ranks. While we struggle to be maintained for years to come, we recommend staff but are denied qualified people. This is clear with the recent and removed folks without any construction background sent to us by this austere group. It should not happen again!
