Please describe your professional qualifications, skills and/or work experience, and how you would use these to benefit the boards and/or commissions for which you are applying.* I have been in the construction industry since I was 16 years old. I understand building codes, can read a set of plans and digest the information necessary to make an informed decision or provide necessary guidance to an applicant.

Please list any community groups with which you are currently or have previously been active and describe your role.* I am an active member of the St Williams Parish dads club, we volunteer our time and efforts to help make improvements and/or raise money for the school and church.

What motivated you to apply to serve on a board or commission, and why did you select the boards/commissions that you did?* I always hear about people having to go in front of the zoning board for variances in the construction work, I have never personally had to do this but I would like to better understand how the committee and process works, I would like to sit as an alternate to get familiar with the formant and eventually be a board member to help fellow applicants through the process and guide people towards better solutions.

If appointed, what do you hope to accomplish during your term? What do you hope to learn?* I hope to learn the process and limitations. I would hope to help other with the process and to help other make better informed decision or provide better solutions for the community.

Is there anything else you would for Council to be aware of, or know about you?
