

CITY OF NOVI CITY COUNCIL
MAY 6, 2024

SUBJECT: Approval of Resolution for Fiscal-Year 2024-2025 Budget and Acknowledging the Multi-Year Budget, Including Projections of Future Fiscal-Years 2025-2026 and 2026-2027.

SUBMITTING DEPARTMENT: Finance

BACKGROUND INFORMATION:

Attached for your consideration is the adopting resolution for the Fiscal-year 2024-2025 Budget and acknowledgement of the multi-year budget. The budget process started in August 2023 with development of the capital improvement program then multiple meetings were held with all departments in order to draft a budget that complied with the overall goals set by the Novi City Council in January 2024. The Recommended Budget was presented to City Council on April 3, 2024.

At the City Council Budget Session held on April 17, 2024, City Council approved the following amendments to the Recommended FY 2024-25 Budget:

- **Motion 1:** The proposed budget had the General Funds' share of the salt dome being paid from fund balance. The City Council approved the funding of the salt dome project to be funded 50% from the Drain Fund, 25% from the General Fund, and 25% from the Major Street Fund. Estimated cost of salt dome is \$1,684,200. The General Funds share of the costs will be paid from costs savings of deferring the Civic Center Generator replacement project originally proposed in FY 24/25. The net reduction in General Fund expenditures for FY 24/25 is \$948,402.
- **Motion 2:** Additional General Fund expenditure adjustments, as proposed by the City Manager, were approved resulting in additional savings for the General Fund (over and above #1 above) for FY 24/25 of \$725,519.

A financial summary is provided on the following pages to show the impact of the amendments on the General, Major Streets, Drain and Drain Perpetual Care Funds.

Also attached are all pages from the Financial Schedules section of the Recommended Budget document which incorporates the City Council's amendments approved at the April 17, 2024 Budget Session along with all other funds which had no changes.

The City of Novi utilizes multi-year budgets as a planning tool to fulfill the City Council's strategic goals and objectives as well as operate within its means. The multi-year budget balances future revenues with the corresponding expenditures and maintains the fund balances for the General Fund and Special Revenue Funds within the limits set by the City of Novi's Fund Balance Policy. Furthermore, the multi-year budget also incorporates the long-range elements of the Capital Improvement Program (CIP) as approved by the City's Planning Commission and presented at the Public Hearing on March 6, 2024.

RECOMMENDED ACTION: Approval of Resolution for Fiscal-Year 2024-2025 Budget and Acknowledging the Multi- Year Budget, Including Projects of Future Fiscal-Years 2025-2026 and 2026-2027.

Notes

A The amended budget for FY 23/24 represents approximately \$3,134,500 of capital expenditures from FY 22/23 that were not purchased in FY 22/23 but rollover to be purchased in 23/24. In addition, \$250,000 for the new fire contract wages, \$251,000 for MERS transfer policy, \$40,000 for fire radio replacement and \$318,000 for fire truck repairs and emergency generators at two fire stations. The original adopted budget had a use of fund balance of \$813,000 and the projected year-end rollovers are estimated at \$1.5 million.

Original estimated General Fund cost of the salt dome was \$928,810. Per Councils direction at the second budget session held April 17, 2024, 50% of the final estimated cost of \$1,684,200 is to be funded by the Drain Fund, 25% the General Fund, and 25% Major Street Fund. Revised General Fund share to be paid from savings noted in **F** below.

C Cost includes salary and fringe benefits

D Reduce transfer of funds out to the Economic Development Fund but to maintain funds to cover the year to date costs of the Economic Development Department. The annual levy of \$50,000 a year is used to promote economic development within the City.

E Skip a year in the current 5 year pooled vehicle and 7 year light duty truck replacement programs

F Delay replacement of generators beyond recommended useful life to the 27/28 fiscal year

G City Council a few years ago directed the administration to use all year-end unspent funds for capital outlay rather than making extra pension contributions. All unspent balances annually will now just fall to fund balance and not be used for capital
