

Novi Environmental Sustainability Committee

Council Presentation

December 16, 2024

What is Environmental Sustainability?

Sustainability is based on a simple principle: Everything that we need for our survival and well-being depends, either directly or indirectly, on our natural environment. To pursue sustainability is to create and maintain the conditions under which humans and nature can exist in productive harmony to support present and future generations.

Managers**

**Northville
Sustainability
Team**

HOA Breakfast

**Oakland
County
Community
Conversations**

Next Steps + Recommendation

Expansion of the Environmental Sustainability Committee to include four additional resident members

Work with City staff on the creation of a Environmental Action Plan

Education is key for building the awareness and trust of the committee and its mission , leverage the existing City events for this, at least once every quarter. (Arbor Day, Superhero Showcase, HOA breakfasts, etc.)

Introduce the Solarize Pilot Program for Novi

Additional Committee Members

Committee is recommending four additional members

- Comprised of Novi residents representing a variety of skillsets related to sustainability
- Term proposed for one year
- A resolution to expand the committee would be on an upcoming Council agenda

Next committee application deadline is January 31

- Applicants interviews held at a February Council meeting
- Council-voted appointments likely in February as well

Environmental Action Plan Approach
