- **Meadowbrook Commons Pickleball Courts**

Repairs have been fully completed under warranty. Courts re-opened for play on Wednesday, July 30.

- **Ice Arena HVAC**

The ice arena has been experiencing high humidity issues related to the install of the new HVAC equipment. Suburban staff and Director Muck have been working diligently with OHM Advisors and the contractors to resolve the issue.

- **Lot 12 Issue on East Lake Drive**

The City owns two lots on East Lake Drive, one of which has a culvert that leads to Walled Lake, and the other is an empty lot. Many years ago, a lawsuit was filed to establish access for “back lot” owners west of the lake. A resident has come forward who is a back lot owner, taking exception to the “buffer” between the lake and the rest of the lot. The buffer is best practice for natural shoreline preservation. We have provided a pathway for owners to have access to the lake. However, this individual disagrees and believes the buffer should be removed. There are some other issues with the neighbor to the north cutting the two lots. Staff will connect with that individual and encourage them to stop any mowing and allow city crews to maintain the parcels properly.

- **Novi Water Tower**

Staff have identified the following issue with the Novi Water Tower. The standpipe is not affixed correctly. PRCS has reached out to multiple contacts to find a contractor to inspect and repair. PRCS is planning to proceed with removal of the standpipe at a cost of \$13,500. This option has been picked as the pipe serves no functional purpose and could be a potential maintenance/safety hazard in the future if not removed. Also, T-Mobile has equipment within the fall zone of the pipe that could be damaged if another issue with the covering arose. The timeline for the removal is still to be determined with our contractor.

- **West Park Drive Rehabilitation (12 Mile to Pontiac Trail)**

The Department of Public Works received word from MDOT today that the contract for the West Park Drive Rehabilitation (12 Mile Road to Pontiac Trail) project, which was not previously definitively known to be moving forward this year, has been approved and awarded to Cadillac Asphalt, LLC. Unfortunately, this means we will need to get started very soon, with little notice, to complete the project this year. **The tentative starting schedule is setting up traffic control and message boards next week, before the first shovel hits the ground, the week of July 14th July 21st, due to contractor delay.**

- **Splashpad**

The park maintenance division has been dealing with an issue with the water pump drive shaft. A contractor for the mechanical components of the splashpad (all covered by warranty) was able to make some adjustments and get the water pressure up to 120 gallons per minute. It's supposed to be at 150 GPM or higher and has fallen as low as 85. The contractor believes the temporary measures will last over the weekend until they can get a replacement shaft from Vortex. (the supplier). Unfortunately, there is a chance it could still fail, which would result in complete loss of pressure and necessitate a shutdown of the splashpad. The main water pump and bypass valve were replaced this week. Gallons per minute is holding steady. Parks Maintenance and our contractor are continuing to monitor and make adjustments as necessary.

- **August 5th Northville Schools Special Election**

Their Ballot Proposal will allow the school district to continue to levy the building and site sinking fund millage that expires with the 2025 tax levy. More specifically, it proposes the renewal of the currently authorized millage rate of .9357 mill for a period of ten years (2026 – 2035) to continue to provide for a sinking fund for the construction or repair of school buildings; for school security improvements; for the acquisition or upgrading of instructional technology; etc.
