Are you a registered voter in the City of Novi?*	YES
How long have you lived continuously in the City of Novi?*	Since 2015
Employed by	Self Employed- Owner of Ramani Dentistry
Educational Background*	I grew up in India and so all my schooling was in Bangalore India. I started my dental career in India, where I graduated with a Bachelor of Dental Surgery from Manipal University in 1997. I earned my Doctorate of Dental Medicine from the University of Pittsburgh in 2001. I completed a General Practice Residency at the University of Michigan. I worked in private practice for many years before starting my own practice in 2013. This year we will be completing 10 years. My experience during my education and my being an associate during the past years has given me insight into not just the clinical aspect of dentistry but also the business part of the field, which served me well when I created my own practice. I understand that for a practice to be successful, the dentist should not only have good dental skills but also be an excellent communicator, a collaborative leader, and an effective businessperson with a vision and purpose. Especially after COVID, I realized that in order to survive you have to create a team that works together for a common purpose. This requires very good communication skills, an even temper to understand people ,understand their point of view and being able to negotiate for a common purpose. I know this is something I can definitely bring to the table.
Please describe your professional qualifications, skills and/or work experience, and how you would use these to benefit the boards and/or commissions for which you are applying.*	I have been very active in the dental community and have decided to take a part in the local community as I feel there is a need to voice our opinion considering the recent developments in school banning etc.
Please list any community groups with which you are currently or have previously been active and describe your role.*	I have been very active in the dental community and have decided to take a part in the local community as I feel there is a need to voice our opinion considering the recent developments in school
What motivated you to apply to serve on a board or commission, and why did you select the boards/commissions that you did?*	

banning etc. The library has played a very important role in my life after I came to this country. It was my place of solace and have very fond memories. My children use the library and brings a lot of joy for them. I also feel that the board should have representation of the people that live in the community and have their voice heard too. I enjoy being a part of the community that has provided so much and would love to give back.

I would definitely like to learn as much as I can and contribute, thereby being a valuable member.

I will be 50 years old this month and feel this is a great time in my life to contribute.

If appointed, what do you hope to accomplish during your term? What do you hope to learn?*

Is there anything else you would for Council to be aware of, or know about you?
