INTRODUCTION

Title VI of the Civil Rights Act of 1964, is the overarching civil rights law that prohibits discrimination based on race, color, or national origin, in any program, service or activity that receives federal assistance. Specifically, Title VI assures that, "No person in the United States shall, on the grounds of race, color, or national origin, be excluded from participation in, be denied the benefit of, or be otherwise subjected to discrimination under any program or activity receiving federal assistance." Title VI has been broadened by related statutes, regulations and executive orders. Discrimination based on sex is prohibited by Section 324 of the Federal-Aid Highway Act, which is the enabling legislation of the Federal Highway Administration (FHWA). The Uniform Relocation Assistance and Real Property Acquisition Policies Act of 1970 prohibit unfair and inequitable treatment of persons as a result of projects which are undertaken with Federal financial assistance. The Civil Rights Restoration Act of 1987 clarified the intent of Title VI to include all programs and activities of federal-aid recipients and contractors whether those programs and activities are federally funded or not.

In addition to statutory authorities, Executive Order 12898, "Federal Actions to Address Environmental Justice in Minority Populations and Low-Income Populations," signed in February of 1994, requires federal agencies to achieve Environmental Justice as part of its mission by identifying disproportionately high and adverse human health or environmental effects of its programs, policies, and activities on minority populations and low-income populations. Environmental Justice Initiatives are accomplished by involving the potentially affected public in the development of transportation projects that fit within their communities without sacrificing safety or mobility. In 1997, the U.S. Department of Transportation (USDOT) issued its DOT Order to Address Environmental Justice in Minority Populations and Low-Income Populations to summarize and expand upon the requirements of Executive Order 12898 on Environmental Justice. Also, Executive Order 13166, "Improving Access to Services for Persons with Limited English Proficiency (LEP)," provides that no person shall be subjected to discrimination on the basis of race, color, or national origin under any program or activity that receives Federal financial assistance.

As a recipient of federal financial assistance, City of Novi must provide access to individuals with limited ability to speak, write, or understand the English language. The City of Novi must not restrict an individual in any way from the enjoyment of any advantage or privilege enjoyed by others receiving any service, financial aid, or other benefit under its programs or projects. Individuals may not be subjected to criteria or methods of administration which cause adverse impact because of their race, color, or national origin, or have the effect of defeating or substantially impairing accomplishment of the objectives of the program because of race, color or religion. Therefore, the primary goals

and objectives of City of Novi's Title VI Program are:

1. To assign roles, responsibilities, and procedures for ensuring compliance with Title VI of the Civil Rights Act of 1964 and related regulations and directives;
2. To ensure that people affected by City of Novi's programs and projects receive the services, benefits, and opportunities to which they are entitled without regard to race, color, national origin, age, sex, or disability;
3. To prevent discrimination in City of Novi programs and activities, whether those programs and activities are federally funded or not;
4. To establish procedures for identifying impacts in any program, service, or activity that may create an illegal adverse impact on any person because of race, color, national origin, age, sex, or disability; or on minority populations, low-income populations, the elderly, persons with disabilities, all interested persons and affected Title VI populations;
5. To establish procedures to annually review Title VI compliance within specific program areas within, City of Novi
6. To set forth procedures for filing and processing complaints by persons who believe they have been subjected to illegal discrimination under Title VI in a City of Novi service, program or activity.

As the sub-recipient of federal transportation funds, City of Novi, must comply with federal and state laws, and related statutes, to ensure equal access and opportunity to all persons, with respect to transportation services, facilities, activities, and programs, without regard to race, color, religion, national origin, sex, socio-economic status, or geographical location. Every effort will be made to prevent discrimination in any program or activity, whether those programs and activities are federally funded or not, as guaranteed by the Civil Rights Restoration Act of 1987.

City of Novi shall also ensure that their sub-recipients adhere to state and federal law and include in all written agreements or contracts, assurances that the subrecipient must comply with Title VI and other related statutes. City of Novi as a sub-recipient, who receives federal transportation funds, shall monitor their subrecipients for voluntary compliance with Title VI. In the event that noncompliance is discovered, City of Novi will make a good faith effort to ensure that the sub-recipient corrects any deficiencies arising out of complaints related to Title VI; and that sub-recipients will proactively gauge the impacts of

any program or activity on minority populations and low-income populations, the elderly, persons with disabilities, all interested persons and affected Title VI populations.

Discrimination under Title VI

There are two types of illegal discrimination prohibited under Title VI and its related statutes. One type of discrimination which may or may not be intentional is "disparate treatment." Disparate treatment is defined as treating similarly situated persons differently because of their race, color, national origin, sex, disability, or age.

The second type of illegal discrimination is "disparate impact." Disparate impact discrimination occurs when a "neutral procedure or practice" results in fewer services or benefits, or inferior services or benefits, to members of a protected group. With disparate impact, the focus is on the consequences of a decision, policy, or practice rather than the intent.

The City of Novi's efforts to prevent such discrimination must address, but not be limited to, a program's impacts, access, benefits, participation, treatment, services, contracting opportunities, training, investigation of complaints, allocation of funds, prioritization of projects, and the overarching functions of planning, project development and delivery, right-of-way, construction, and research.

City of Novi has developed this Title VI Plan to assure that services, programs, and activities of the department are offered, conducted, and administered fairly, without regard to race, color, national origin, sex, age, or disability of the participants or beneficiaries of federally funded programs, services, or activities (see Title VI Assurances below).

LIMITED ENGLISH PROFICIENCY

Background

On August 11, 2000, President William J. Clinton signed an executive order, Executive Order 13166, "Improving Access to Service for Persons with Limited English Proficiency"ⁱ to clarify Title VI of the Civil Rights Act of 1964. It had as its purpose, to ensure accessibility to programs and services to otherwise eligible persons who are not proficient in the English language.

This executive order stated that individuals who do not speak English well and who have a limited ability to read, write and speak, or understand English are entitled to language assistance under Title VI of the Civil Rights Act of 1964 with respect to a particular type of service, benefit, or encounterⁱⁱ. These individuals are referred to as being limited English in their ability to speak, read, write, or understand English, hence the designation, "LEP," or Limited English Proficient. The Executive Order states that:

"Each federal agency shall prepare a plan to improve access to its federally conducted programs and activities by eligible LEP persons. Each plan shall be consistent with the standards set forth in the LEP Guidance, and shall include the steps the agency will take to ensure that eligible LEP persons can meaningfully access the agency's programs and activities."

Not only do all federal agencies have to develop LEP plans as a condition of receiving federal financial assistance, but recipients also have to comply with Title VI and LEP guidelines of the federal agency from which funds are provided as well.

Federal financial assistance includes grants, training, use of equipment, donations of surplus property, and other assistance. Recipients of federal funds range from state and local agencies to nonprofits and organizations. Title VI covers a recipient's entire program or activity. This means all parts of a recipient's operations are covered, even if only one part of a recipient's organization receives the federal assistance. Simply put, any organization that receives federal financial assistance is required to follow this Executive Order.

The City of Novi receives funds from the US Department of Transportation via the Federal Highway Administration.

The US Department of Transportation published *Policy Guidance Concerning Recipients' responsibilities to Limited English Proficient Person* in the December 14th, 2005 Federal Registerⁱⁱⁱ.

The Guidance implies City of Novi as organizations that must follow this guidance:

This guidance applies to all DOT funding recipients, which include state departments of transportation, state motor vehicle administrations, airport operators, metropolitan planning organizations, and regional, state, and local transit operators, among many others. Coverage extends to a recipient's entire program or activity, i.e., to all parts of a recipient's operations. This is true even if only one part of the recipient receives the Federal assistance. For example, if DOT provides assistance to a state department of transportation to rehabilitate a particular highway on the National Highway System, all of the operations of the entire state department of transportation-not just the particular highway program or project-are covered by the DOT guidance.

City of Novi's primary LEP language group is Asian Pacific Islander with Japanese being the primary LEP language. This guidance applies to all DOT funding recipients, which include state departments of transportation, state motor vehicle administrations, airport operators, metropolitan planning organizations, and regional, state, and local transit operators, among many others. Coverage extends to a recipient's entire program or activity, i.e., to all parts of a recipient's operations. This is true even if only one part of the recipient receives the Federal assistance. For example, if DOT provides assistance to a state department of transportation to rehabilitate a particular highway on the National Highway System, all of the operations of the entire state department of transportation-not just the particular highway program or project-are covered by the DOT guidance.

ENVIRONMENTAL JUSTICE

Compliance with Title VI includes ensuring that no minority or low-income population suffers "disproportionately high and adverse human health or environmental effect" due to any "programs, policies and activities" undertaken by any agency receiving federal funds. This obligation will be met by the City of Novi in the following ways:

When planning specific programs or projects, identifying those populations that will be affected by a given program or project. If a disproportionate effect is anticipated, following mitigation procedures. If mitigation options do not sufficiently eliminate the disproportionate effect, discussing and, if necessary, implementing reasonable alternatives

Disproportionate effects are those effects which are appreciably more severe for one group or predominantly borne by a single group. The City of Novi will use U.S. Census data to identify low income and minority populations.

Where a project impacts a small number or area of low income or minority populations, the City of Novi will document that:

- Other reasonable alternatives were evaluated and were eliminated for reasons such as the alternatives impacted a far greater number of people or did greater harm to the environment, etc.
- The project's impact is unavoidable,
- The benefits of the project for out-weigh the overall impacts and
- Mitigation measures are being taken to reduce the harm to low income or minority populations.

If it is concluded that no minority and/or low-income population groups are present in the project area, the City of Novi will document how the conclusion was reached. If it is determined that one or more of these population groups are present in the area, the City of Novi will administer potential disproportionate effects test.

The following steps will be taken to assess the impact of project on minority and/or low-income population groups:

STEP ONE: Determine if a minority of low-income population is present within the project area. If a conclusion is that no minority and/or low-income population is present within the project area, document how the conclusion was reached. If the conclusion is that there are minority population and/or low-income population groups present, proceed to Step Two.

STEP TWO: Determine whether project impacts associated with the identified low income and minority populations are disproportionately high and adverse. In doing so, refer to the list of potential impacts and questions contained in Appendix E. If it is determined that there are disproportionately high and adverse impacts to minority and low-income populations, proceed to Step Three.

STEP THREE: Propose measures that will avoid, minimize and/or mitigate disproportionately high and disproportionate adverse impacts and provide offsetting benefits and opportunities to enhance communities, neighborhoods and individuals affected by proposed project.

STEP FOUR: If after mitigation, enhancements and offsetting benefits to the affected populations, there remains a high and disproportionate adverse impact to minority or low-income populations, then the following questions must be considered:

Question 1: Are there further mitigation measures that could be employed to avoid or reduce the adverse effect to the minority or low-income population?

Question 2: Are there other additional alternatives to the proposed action that would avoid or reduce the impacts to the low income or minority populations?

Question 3: Considering the overall public interest, is there a substantial need for the project?

Question 4: Will the alternatives that would satisfy the need for the project and have less impact on protected populations (a) have other social economic or environmental impacts that are more severe than those of the proposed action (b) have increased costs of extraordinary magnitude?

STEP FIVE: Include all findings, determinations or demonstrations in the environmental document prepared for the project.

Complaints must be in writing and must be signed by the complainant and/or the complainant's representative. The complaint must set forth as fully as possible the facts and circumstances surrounding the claimed discrimination. 4. Newspaper articles
5. Courtesy copies of internal grievances

V. Investigation

All complaints investigations are delegated by FHWA. Allegations of discrimination are taken very seriously and will be investigated in a timely manner. The Title VI Coordinator will gather relevant information in a fair and impartial manner and will submit the complaint to MDOT's Statewide Title VI Coordinator who will forward the complaint to FHWA.

The Title VI Coordinator shall organize the gathered information and include a prepared document, which includes, but is not limited to the following:

- Names of the complainant(s) and respondent(s)
- Basis for complaint
- Issues, events, or circumstances that caused the person to believe that he/she has been discriminated against
- Information needed to address the issue
- Criteria, sources necessary to obtain the information
- Identification of key people
- Remedy sought by the complainant(s)

Timeframes for Investigations

For FHWA, there is no regulatory timeframe for completing investigations. However, FHWA strives to complete all tasks within 180 days from the date of acceptance.

For State DOTs that have been delegated an investigation from FHWA, 23 CFR § 200.9(b)(3) provides that State DOTs must complete investigations within 60 days of receipt (meaning the date it receives the delegated complaint from FHWA).

FHWA Investigation Potential Outcomes

First, at any time during the investigation, either FHWA or the respondent may initiate informal negotiations to resolve the issues. The FHWA always strives to resolve Title VI complaints informally, if possible.

In the absence of such negotiations, FHWA Headquarters Office of Civil Rights (HCR) (or an investigator State DOT) will draft a Report of Investigation, which should contain all relevant data and findings, with legal conclusions and potentially include recommendations for action. FHWA is responsible for the final disposition of all complaints, including initiation and conduct of informal negotiations and the issuance of Letters of Finding (LOFs).

There are five potential outcomes for concluding an investigation:

1. The FHWA makes a finding of no violation, and the case will be closed with no further action. The FHWA will issue an LOF stating in sufficient detail the reasons for the determination of no violation.
2. If, by a preponderance of the evidence, FHWA determines the respondent has failed to comply with its Title VI requirements or threatens to fail to comply by action or inaction, then FHWA will inform the respondent and the matter will be resolved by informal means whenever possible.
 - If FHWA informally resolves the matter with the respondent by agreement, then FHWA will hold the complaint in abeyance until the respondent completes its corrective actions. If the corrective actions are completed to the FHWA's satisfaction, then the complaint will be dismissed with no further action.
 - If FHWA cannot informally resolve the matter or the respondent does not complete agreed upon corrective actions, then FHWA

may issue a LOF stating that the Recipient is in noncompliance with its Title VI obligations.

3. If FHWA issues a LOF of noncompliance to the respondent, the LOF will request that the respondent provide to FHWA, within 90 days, an action plan that implements the recommendations in the LOF.
4. If FHWA approves the action plan, then the respondent will be given a reasonable amount of time to implement the plan. At the end of the implementation period, FHWA will assess whether the respondent has sufficiently corrected the deficiencies.
5. If FHWA does not approve the action plan, or the respondent is nonresponsive/uncooperative, then FHWA may seek administrative sanctions, including, but not limited to, suspension or termination of Federal funds or any other means authorized by law such as referral to USDOJ for enforcement.
 - If USDOT seeks to suspend or terminate funds, it must provide the respondent with an opportunity for a hearing on the record. If the Secretary of Transportation determines that the respondent has not complied with Title VI and voluntary compliance cannot be secured, USDOT must notify Congress before that finding goes into effect. 49 CFR §21.13(c).

All LOFs issued by FHWA are administratively final.

Appendix E: Determining/Distinguishing Significant/Non-significant Effects

"Significant" requires considerations of both context and intensity:

- a) *Context*. This means that the significance of an action must be analyzed in several contexts such as society as a whole (human, nation), the affected region, the affected interests, and the locality. Significance varies with the setting of the proposed action. For instance, in the case of a site-specific action, significance would usually depend upon the effects in the local area rather than in the world as a whole. Both short- and long-term effects are relevant.
- b) *Intensity*. This refers to the severity of impact. Responsible officials must bear in mind that more than one agency may make decisions about partial aspects of a major action. The following should be considered in evaluating intensity:
 - 1) Impacts that may be both beneficial and adverse. Significant effect may exist even if, on balance, the effect would be beneficial.

"Non-significant effect" means no substantial change to an environmental component and this no material bearing on the decision-making process.

Scientific, technical, institutional, the public's value, and the local economic conditions influence the meaning of significant effect.

If an alternative would provide a beneficial effect, then the alternative would cause no significant adverse effect. If an alternative would provide an adverse effect, the effect might be significant, or the effect might be non-significant.

Determinations of "significant" and "non-significant" effects will be made by the City Manager.
