What motivated you to apply to serve on a board or commission, and why did you select the boards/commissions that you did?*

Driven by my passion for achieving lasting progress and success for myself and others, I have sought to serve my fellow neighbors and citizens in the best way possible.

If appointed, what do you hope to accomplish during your term? What do you hope to learn?*

If appointed, I hope to use my background in finance, small business ownership, and creative communication to strengthen Novi's growth and community engagement. My experience as a financial consultant gives me a strong foundation in planning and budgeting, while my

business and social media work have taught me how to connect with people and bring creative ideas to life. I hope to help promote sustainable development, support local businesses, and enhance community programs. I also look forward to learning more about how city planning and decision-making work so I can be an effective and collaborative contributor.

What do you think the City is doing well or could be doing differently when you think about the areas of responsibility for the boards and/or commissions for which you are applying?

I have been working from home for the most part, so I would say that the selection of small businesses is incredible; however, I feel the marketing for community outreach to get more people excited to be involved could be spruced up.

Is there anything else you would for Council to be aware of, or know about you?

I'm aiming to be involved politically, so I would love the experience and learn from everyone as much as I can.
