For which board or commission are you re-applying?

Construction Board of Appeals

Why would you like to serve?

To continue with my many years of serving on this board. In recent years as the Vice Chair. It allows me to continue to serve my profession and community.

What are you proud of accomplishing during your term?

To be the person to bring each case to a prompt and fair resolution without compromising the health, safety, and welfare of the community and applicant.

If reappointed, what do you hope to accomplish in your next term?

To continue to offer the perspective and experience of a professional architect with over 50 years of experience in the profession and fairly apply the codes and/or ordinance.

What do you want Council to know about your board or commission, and how can they assist your board or commission with its goals?

Council in recent years has appointed individuals that do not have any experience in the construction industry. This has weakened the qualifications of the overall board. Years ago the requirements to serve on the board was outlined in the building code. The code has since changed. Council needs to only appoint members who are either qualified design professionals or those who are experienced in the construction industry. This should likely not include those from the property development, sales, or management industry.

Is there anything else you would like for Council to know about you and/or your work on the board or commission?

Former Planning Board member (1982-85) where I was instrumental in creation of the Town Center ordinance and creator of the "Facade Ordinance" which has since been copied by many other communities. Former Chair Novi Historic District Study Committee, Former President

of Novi Chamber of Commerce, Former President Novi Rotary Club (twice!). The renovation of my former office building, The Applebarn, still remains the only building within the City of Novi to be recognized by the American Institute of Architects for design excellence.
