Please describe your professional qualifications, skills and/or work experience, and how you would use these to benefit the boards and/or commissions for which you are applying.*

I have been working as a user experience professional for nearly two decades with the goal of organizing large information sets and creating greater transparency of information. Aside from the technical skills used to design and create easy-to-use processes, I focus on how people use systems relying on data to help target areas of concern.

Please list any community groups with which you are currently or have previously been active and describe your role.*

Novi Educational Foundation, Trustee - 2022 - 2025

What motivated you to apply to serve on a board or commission, and why did you select the boards and/or commissions that you did?

I'm motivated by a strong desire to give back to a community that values education, curiosity, and lifelong learning. I believe that a community is shaped by the people who actively invest in it, and I would welcome the opportunity to contribute in a meaningful and constructive way. I selected the Library Board because it closely aligns with both my personal values and

professional interests. Libraries play a vital role in fostering access to information, supporting education, and strengthening community connections, and I would be proud to support that mission through board service..

If appointed, what do you hope to accomplish during your term? What do you hope to learn?*

I would hope to contribute to strengthening the library as a welcoming, accessible resource for the entire community. During my term, I'd like to support initiatives that expand access—whether through programming, partnerships, or outreach—and help foster thoughtful growth and change that aligns with our community's evolving needs, particularly when it comes to technology and digital access. This includes supporting efforts that enhance digital literacy, improve access to online resources, and ensure the library remains a relevant and responsive hub in an increasingly digital world.

What do you think the City is doing well or could be doing differently when you think about the areas of responsibility for the boards and/or commissions for which you are applying?

The city is moving in a direction that I strongly support. It is the responsibility of the boards and commissions to keep that pace and adapt to the evolving demands of its population.

Is there anything else you would like for Council to be aware of, or know about you?

I look forward to learning more about this opportunity.
