

Application for Public Park and Facility Naming

Name of Applicant: Martin Růžicka

Park Name: STROMOVKA PARK

Explanation:

I enthusiastically propose the name 'Stromovka Park' for the new downtown core. This choice directly honors the rich Czech heritage of New Prague's founders. 'Stromovka' is Prague's oldest and most beloved public park, meaning 'Place of Trees'. The name perfectly mirrors the actual design and physical layout of this new space. It beautifully celebrates the extensive tree planting and walking trails in the plan. The scenic water basin directly reflects the famous ponds of the original Stromovka. It provides an authentic and vibrant home for the Praha Performance Stage (POPS). This distinct, historic name brings a living piece of Prague culture to our community.
