

# 2026 Visioning List

Each year, the City Council meets with the City department heads and holds a number of workshops to determine projects and ideas the City would like to accomplish. Some of the projects are small in both cost and interest to the public, such as updating the employee review process, while others are large in both cost and interest to the public, such as building a new City Hall or development of the land in the southwest portion of town thought to be an athletic complex. Some projects are internal to City operations, such as implementing a City-wide GIS solution while others are more public based, such as a trail to Cedar Lake Farm Regional Park.

This list is in no way exhaustive of the activities of staff but is meant to act as a beacon for specific projects that are desired to be completed and to act as a list that will increase the accountability of both the Council and the staff for completion of projects. It is possible that some projects listed will not be completed in their given year due to extenuating circumstances or because a change in desirability took place. At the end of each calendar year, the City Administrator will share a report with the City Council that will outline the progress on the visioning list and the outlook for the next year.

Within the following list, each project/idea will have the following:

- a Target Date that the City would like to complete the project by;
- a Date Added that shows the year the idea was first added to the list;
- an Original Target Date that shows the Target date a project/idea was first assigned to track if a project has moved around;
- a Responsible Department that the City Administrator will use to track which departments are working on the various projects;
- a Details section that will layout and explain what the project is and why it is being supported; and
- and Progress section that will show progress on the projects/ideas.

The list is expected to be updated annually and approved at the end of each year during the budgeting process. As the list continues to be used through the years, completed projects will be listed in an abbreviated form at the end of the document for up to five years to remind readers what the City has been able to accomplish.

I hope that this process will continue to evolve into the future and be completed so that the City can continue to progress, providing better and more efficient services to our residents as we continue to grow.

City Administrator, City of New Prague

Strategic Plan			
Target Year	2025	Year Added	2024
Original Target Year	2025	Change in Target Year?	
Resp. Depart.	Council/Administration		
Details	<p>Most organizations that are considered successful tend to have in common that the organization as a whole is moving in the same direction. From the Board of Directors (or owner) to the hourly employees, everyone is aware of the mission of the organization and the goals it hopes to accomplish over the next five to ten years. As I consider New Prague and what can be done to ensure it continues to be regional leader, I believe the next step is to have a formal Strategic Planning process. This would help Council, staff, and the community know the direction the City is headed and why certain decision are made. It'll help boards and commission when new projects are being reviewed as to whether those projects match the vision for the community that Council has set. It'll help staff when preparing the budget and the Council when reviewing the budget that the budget is advancing the goals for the community. And it will help explain the reasons behind Council decisions to the general public and allow the Council to point to "why" a certain decision was made.</p> <p>Staff does not have the expertise to lead this overall discussion. To allow staff to fully participate in the Strategic Planning process, I would recommend bringing in a third-party mediator to lead the discussion and know which questions to be asking to get the best result possible.</p> <p>With a newly elected City Council settling in, a great time to do this project would be early 2027.</p>
