FY24	FY25	FY26	FY27	FY28	Total
\$9,800	\$	\$	\$	\$	\$

Project Description:

The Oelwein Police Department duty weapons are approximately fourteen years old. The duty life of a police firearm is projected to be twelve to fourteen years with many departments rotating firearms out of service every eight to ten years. The springs in the magazines begin to develop a memory, subjecting the firearms to malfunctions, and other parts of the firearms start to wear.

Additionally, federal studies indicate law enforcement officers are now better served by utilizing a 9 mm firearm. The Oelwein Police Department presently utilizes a 40 caliber firearm. This project would replaced the current firearms, sights, gun lights, and holsters.

Project Description:

The Oelwein Police Department, back in 1990, was the smallest police department to ever be accredited. That accreditation was allowed to expire, in the mid-90's, due to cost at the time. Law enforcement, each day, is faced with various court rulings or actions that impact how the job is performed. This project allows for a complete policy and procedures revision that includes legally tested policies that are specific to the state of Iowa. In addition, it provides officers with daily training bulletins to keep them current on policy and court rulings. This in turn reduces errors and also litigation. This software will provide supervisors with legally defensible documentation of each employees training and understanding of the department's policy. The City's relationship with EMC Insurance allows us to receive a 10% discount plus a 10% premium discount.

Project Description:

The Oelwein Police Department follows the traditional model of utilizing a leather basket-weave duty belt to organize accessible equipment to perform law enforcement duties. Recent studies indicate that the utilization of duty belts in this manner provides for an increase risk in lower back issues and hip issues for the officers. Additionally, officers entering the law enforcement profession in these current times desire to remove the heavy load from their hips and lower back and utilize an upper body out vest carrier that houses equipment traditionally placed on the hips. The department will seek to obtain outer vest carries and under shirts that continue to provide a professional and respectful appearance.

Project Description:

The Oelwein Police Department Tactical Team trains regularly to respond to high risk situations, tactical entries, and active shooter incidents. This past year, the department has been sharing training events and working to combine tactical teams with the newly created tactical team for the Independence Police Department. The current tactical body armor utilized by the Oelwein team is approximately 15 years old and not capable of stopping a round fired by a rifle. This project would acquire six tactical vests with armor plates rated to stop a rifle round.

Project Description:

Annual replacement of a patrol vehicle. These vehicles endure many miles annually and that doesn't take into consideration the tens of thousand of "run time" hours. There is a specific need to maintain a vehicle rotation plan. Our present system has reduced vehicle maintenance costs. It is imperative that we maintain a rotation plan to continue to see costs savings on maintenance and future acquisition. In recent years, we have seen a reduction in vehicle line expenses, due to the return to a regular vehicle rotation. The reduction in maintenance costs aided us in maintaining or slightly increasing the overall vehicle maintenance line, despite the significant increases in fuel costs. This cost estimate covers vehicle purchase, some lighting replacement & equipment install. The newly acquired hybrid police package vehicles have allowed for a fuel savings. We would anticipate continuing down this path.
