I. Project Description

The project is described as the resealing of pavement joints in the terminal apron and connecting taxiway at the Oelwein Municipal Airport, Oelwein, Iowa. The project involves the following major construction elements:

Resealing of pavement joints in the existing terminal apron with jet fuel resistant joint sealant and an alternate bid for resealing of pavement joints in the connecting taxiway with hot pour joint sealant.

It is anticipated that design and construction of this project will be funded with federal funds received through the Federal Aviation Administration CARES Act grant.

II. **Scope of Services**

The work to be performed by ATS shall encompass and include detailed work, services, materials, equipment and supplies necessary to provide preliminary design, final plans, specifications, construction cost estimates, bidding services and limited construction-related services. Work shall be divided into the following tasks;

1. **Preparation of Design Plans.** This task consists of the preparation of the final design plans for this project. Plans will utilize record drawings for the terminal apron and connecting taxiway.
2. **Project Manual.** This task consists of the preparation of the project manual for the project. The technical specifications and corresponding contract documents will be in compliance with current FAA requirements in effect at the time the specifications are prepared. Project manual will incorporate the most recent FAA Central Modifications to the standard technical specifications.
3. **Airspace Submittal.** This task consists of preparation and submittal of FAA 7460-1 forms electronically through the FAA's OEAAA website for permanent construction points (e.g. limits/corners of the taxiway construction) and temporary construction items, including contractor's staging area, access routes and construction equipment. Air space forms will be submitted during design phase of project once element locations are defined in order for FAA determinations to be received prior to anticipated construction start.
4. **Estimate of Probable Construction Cost.** This task consists of the preparation of a detailed estimate of construction costs based upon the detailed plans and specifications. This statement of probable construction cost prepared by ATS represents ATS's best judgment as a design professional at the time the estimate is drawn. It is recognized, however, that neither ATS nor the Sponsor has any control over the cost of labor, materials or equipment; over the contractor's method of determining bid prices; or over competitive bidding or market conditions. Accordingly, ATS cannot and does not

guarantee that bids will not vary from any statement of Probable Construction Cost or other cost estimates prepared by ATS.

5. **Quality Review.** This task consists of the quality review of work elements on the project. During the course of this project, quality reviews will be conducted by senior technical personnel not directly involved in the project.
6. **Bid Assistance.** This task consists of assisting the Sponsor in advertising for and receiving bids, analyzing the bids received, preparing a recommendation to the Sponsor and FAA for award of contract. The following documents will be provided as part of this task:
 - 1) Letter of Recommendation
 - 2) Tabulation of Bids (provided as PDF and Excel file)
 - 3) Copies of the Proposals Received
 - 4) DBE Participation – Letters of Intent
 - 5) DBE Certification Forms
 - 6) Buy American Certification
 - 7) Single-bid Analysis (if required)
7. **Pre-Construction Conference.** This task consists of preparation of meeting agenda, attending, conducting a pre-construction conference with representatives of the Contractor, Sponsor, Consultant, FAA and affected utilities, preparing meeting minutes, and distribution to all meeting attendees and critical organizations not represented at the meeting.
8. **Labor and Payroll Reports.** This task consists of reviewing weekly labor and payroll reports for compliance with Davis-Bacon Act, conducting on-site employee interviews, conducting E.E.O. site inspections and completion of GSA Form 1445. Original documents will be submitted to the Sponsor at completion of project for storage.
9. **Final Review.** This task consists of performing a field observation of the completed Project before a final application for payment is processed for the Contractor.
10. **Project Administration.** This task consists of office administration and coordination of the project. Interoffice meetings, general day-to-day administrative responsibilities, and typing of interoffice memoranda and minutes of meetings are included in this task.

- 3) Inserting a clause or condition in the covered transaction with the lower tier contract

If the FAA later determines that a lower tier participant failed to tell a higher tier that it was excluded or disqualified at the time it entered the covered transaction, the FAA may pursue any available remedy, including suspension and debarment.
