MEMORANDUM

TO: City Administrator Dylan Mulfinger – Mayor Brett DeVore – Oelwein City Council

SUBJECT: City Park Electrical Upgrades

The Park Department was awarded a grant from the Fayette County Community Foundation in the amount of \$10,000. These grant funds are to be utilized in upgrading and replacing the existing electrical panels at City Park. These panels are heavily used during the Oelwein Celebration every year that brings thousands of people to the community. I would recommend the bid from Etringer due to Irvine stating that they could not get the project done by mid-March. This project needs to be completed and reports turned in by March 31 per grant requirements.

City Park Electrical Project

Irvine Electric	\$19,500
Etringer Electric	\$22,150
