Funding Source(s):	Franchise	Project Loc P.D. Facility	

FY22	FY23	FY24	FY25	FY26	Total
\$115,000	\$57,500	\$57,500	\$58,000	\$58,000	\$346,000

Project Description:

Annual replacement of a patrol vehicle. These vehicles endure many miles annually and that doesn't take into consideration the tens of thousand of "run time" hours. There is a specific need to maintain a vehicle rotation plan. Our present system has reduced vehicle maintenance costs and has allowed us to not have to purchase a vehicle every year as we once did. A few years back, due to budget considerations, the police department was denied the acquisition of a new patrol car for four consecutive years. This was a set-back for the vehicle rotation plan and now requires us to replace two vehicles this fiscal year. It is imperative that we return to that rotation plan to continue to see costs savings on maintenance and future acquisiton. We have patrol cars that are rusting through and the maintenance savings that we had experienced for years has diminished and our maintenance costs have risen considerably. This cost estimate covers vehicle purchase, some lighting replacement & equipment install. The newly azquired hybrid police package vehicles have started to see a fuel savings. We would anticipate continuing down this path.

FY22	2 FY23	FY24	FY25	FY26	Total	

Project Description:

\$4,000

The Oelwein Police Department will be transitioning to contracted services for emergency and routine dispatching. The civilian positions of a clerk and administrative assistant will be utilized to complete the records management and data entry for the department. The dispatch center was previosly slated for computer upgrades of approximately \$10,000 for the coming fiscal year. The department would forgo that request and since the clerical systems will not be as robust and as many computers, would seek to replace the aged dispatch computers with new computers and a printer.

	\$5,000					\$5,000	

Project Description:

The Oelwein Police Department responds to various calls in which lighting is poor, traffic is heavy, and conditions are dangerous. Having highly visible and effective emergency lighting, for traffic and scene control is important to ensure the safety of officers, fire personnel, EMS, and those involved in the incident. This project will provide each patrol unit with a set of 10 LED synchronized lighting that lets oncoming traffic be aware of an incident ahead and guides them through the scene. In addition, these devices can quickly convert to allow an air ambulance to see an accident scene and their landing zone.

\$6,000					\$6,000

Project Description:

The Oelwein Police Department has utilized a department website to provide pertinent information to the public and to provide press releases to media since approximately 2003. The department last performed a major update to the overall website in 2009. The department also utilizes the website for recruitment and ordinance information for community members. The uniqueness of the website has received significant praise from other agencies, communities, and community members.

FY22	FY23	FY24	FY25	FY26	Total
\$11,000					\$11,000

Project Description:

The Oelwein Police Department has utilized a standard drone for surveying crime scenes, conducting preoperation assessments, reviewing traffic accident scenes, looking for suspects, and assisting other city departments. The present drone that is utilized was donated by an officer and has seen its better days. This project would seek to acquire a more durable drone that also allows for thermal imagery. This device can additionally be utilize to locate missing children and the elderly. The device will also allow officers to safely search for suspects that have fled law enforcement.
