

To: Oelwein City Council

From: Dylan Mulfinger, City Administrator

Subject: Comprehensive Plan Steering Committee

Policy Date: 6/27/2022

---

The process for completing the Comprehensive Plan requires a Steering Committee. This committee meets five times throughout the process and can be made up of council members, other board/committee members, and members of the community. The City Administrator is recommending the Mayor and a council member to the steering committee then have other board/committee members and community members on the committee. City Council will still play a major role in the comprehensive plan and will be a part of several meetings. The City Administrator needs direction on filling the Steering Committee positions.
