

Memo

To: Honorable Mayor & City Council,

From: Utility Superintendent Victor Kane

CC: City Administrator Dylan Mulfinger

Reference: Tile extension 13th Ave NE

Date: 10/23/2020

Greetings,

The added work on the 100-block 13th Ave NE is moving forward. However, the exploratory digging to find the existing drainage tile to connect to turned up nothing. To address this issue, we are proposing the following for your approval. We are requesting up to \$20,000 to complete the needed tile installation as a stand-alone city project. This will allow us to have West Union trenching bore approximately 600 foot of 4-inch tile and make the necessary tie ins. This tile will run from the new intake located in the 200 block to the new tile installed in the 100 block. We hope to complete this fall if weather and the contractor's workload allow. Otherwise it will be completed next spring.

Thank you for your time.

Victor Kane

From the Desk of
Oelwein Utility Superintendent Victor Kane
