

Community Development Department Monthly Abatement/Code Enforcement Report

February 2021

Total Reported Properties

February was calmer than January with 14 new cases. Of these, 10 were abatements (sanitation, rodents/animals, vehicles, some of which also had code enforcement issues) and the other 4 were code enforcement (structure related such as collapsing porches, missing siding, dilapidated garages, etc.). Three cases were closed.

Online vs Staff Generated Activities

Of the 14 new cases, 7 were staff generated with the remaining 7 being complaints submitted online or called in.

Progress on Cases

Of the 14 cases, three were closed with the remaining 11 in progress awaiting delivery of the Certified Mail, responses from homeowners, compliance actions to be performed, or progress being made but not yet completed.

Next Month and Future Enforcement

As the snow continues to melt, it will expose further abatement needs and we will continue enforcement.
