Luckily it was his leg and not his face that dog should not be around people

I agree I'm sorry. I think she was beat and treated badly so she is most up. The dog is staying at megans till we get are own place so the dog wont be there

So u took the problem next to my in laws where my kids are staying this weekend how do I explain that to my terrified little boy

It will be locked in the garage

The dog will be with me this weekend. So just let me know whenever your kids are over there. I'll grab the dog.
