

To: Mayor and City Council
From: Dylan Mulfinger, City Administrator
Subject: Code
Date: 4/27/2026

The city code has needed codification for many years. An attempt with civic plus proved to be difficult as their process provided no direction, only highlighting what needed changed. City staff is more interested in a more comprehensive approach.

The proposed cost for this project is \$10,000. This cost is built into the Administration budget. This project will help clean up the city's code. Codification is required by the state of Iowa.
