Why are we expanding?

- Redesign Transit Center to support increased service in Oregon City and Clackamas County by TriMet and partner transit agencies.
- TriMet received a Federal Earmark for \$5M from (former) Congressman Schrader to improve and upgrade the transit center.
- Upgrade bus driver restroom to support TriMet workforce recruitment and retention efforts.
- Improve bus stop amenities and shelters to create a more welcoming environment for riders.
- Long-term investment to meet ridership and service goals shared by the community and jurisdictional partners through Forward Together 1.0 & 2.0
