Town of Palmer Lake

Training	Ongoing weekly/ monthly safety training and meetings
Other Activity	<p>Met with CDOT about “spring water issue” on 105 - they will cut ditches on both sides of the road for now to see if this will help divert the water and not get under the roadway. Basically, assess until spring and then see if other actions need to take place (they dug a more pronounced ditch on the South side of 105 in the last few weeks).</p> <p>West Fork will begin demo work on ER cabins. Electrical isolated and currently waiting on Black Hills to confirm the gas is isolated.</p>
