

**TOWN OF PALMER LAKE  
BOARD OF TRUSTEES - AGENDA MEMO**

<b>DATE:</b> December 14, 2023	<b>ITEM NO.</b>	<b>SUBJECT:</b> Resolution to Authorize Agreement with Dukes Electric to Install Pedestrian Bridge Lighting
<b>Presented by:</b> Town Administrator /Clerk		

**Background**

Staff worked with the Parks Commission for lighting plan options for the pedestrian bridge. One condition to the lighting was respective review and approval by UP Railway.

Per the request of the Board, enclosed are the various proposals:

Dukes Electric	\$24,800
Vossen Electric	\$22,240
Mr. Electric	\$18,067

The overhead design option from Dukes Electric was approved by the UP Railroad. Thus, although it is not the lowest proposal, it is the design option approved by the railroad to install overhead lighting on the pedestrian bridge.

**Recommended Action**

It is town staff's recommendation to authorize Dukes to install the lighting on the pedestrian bridge as previously approved by the railroad. A request will be made to Awake Palmer Lake to assist with funding.
