The form may be manually signed by printing the form and signing by hand and then turned in at the Town office.

To the Palmer Lake Board of Trustees;

Thank you for taking the time to consider my volunteer application for a position on the Palmer Lake planning commission.

I am writing this letter to let you know some key information about me and my family which I believe will enable me to be a successful and productive member of the town Planning Commission.

I am an electrical engineer by education, graduating from Montana State University, Bozeman Montana in 1984. I have worked in the semiconductor industry my entire career, serving in many different engineering and management positions. I currently work for EM Microelectronic as a RFID project manager, out of a Colorado Springs office.

My wife and I and our three children moved from Pocatello Idaho to Colorado Springs in 2005. We have lived in Manitou Springs and the Old North End of Colorado Springs until settling in Palmer Lake in 2019, moving into our current home at 317 Columbine in early 2020.

While I have not officially served in any position in a Municipal Government, I have volunteered for many community oriented groups as a contributor and leader including; Boy Scouts of America as Cub Scout pack leader and Cub Master, JDRF volunteer and coach and assistant for many of our children's sports endeavors.

Professionally, I am and have been an active member and contributor to many semiconductor academic and industry groups. I am comfortable with public speaking, contributing as a panelist or leading several hundred in person speaking events, online events and/or company/customer events.

I hold many training and professional certifications, the most relevant of which for the planning commission position, is my Project Management Professional Certification (PMP #1813136). Project Management is about working with and leading a group subject matter experts to complete the best planning to enable flawless execution. I am an expert user of common industry tools including the MS office suite. As a project management professional, I have led project teams consisting of 5 to 100 people, lasting 6 months to 5 years. I have experience writing and reviewing legal documents and contracts, as well as requirements documents and specifications.

During my life, I have had the opportunity to live in many places through out the mountain west and pacific northewest, I have had the great privledge to travel to many different countries and places. I can truly say Palmer Lake is a unique gem in the world. Sitting at the foothills of the Rocky Mountains, access to numerous open spaces and parks, with dirt

roads and P.O. boxes, part of the natural world, bears, foxes, wild turkeys, deer, elk, mountain lions, an amazing history not to mention a historical town hall, police station, library and fire department, unique restaurants and shops and of course a major train route (I am a model train enthusiast). No matter your background or beliefs, the town itself fosters and enforces a strong sense of community, something unique along the front range. I think it is important to maintain, as much as possible, a balance between the inevitable regional growth and traditional town appeal and values.

As a citizen of Palmer Lake, with my personal and professional background and support of my wife, I believe I am a qualified candidate for the town planning commission position. I look forward to the opportunity to work with you and the other planning commission members.

Sincerely,

George W. Courville
