FYI

Charles Sarkisian (719-351-3099) stopped by & he wanted me to pass this information along. He would like the Town & BOT to consider a season pass.

He is a low income senior, annual income of \$18,000 & lives in the mobile home park. He has some health problems & he has been trying to walk up to the first reservoir 4-5 times per week. It can take him up to 1.5 hours to complete but he is able to get the heart rate up due to the incline. He is aware of the free parking off of 105 but that would add a 1/2 mile to his walk. He is not sure he can physically do both. He wears shoes with spikes so he can keep his footing. Walking from 105 to the trailhead while wearing spiked boots is difficult on the concrete. Every time he walks to the reservoir he educates people with regards to the NO dogs ordinance. He picks up trash & feels he is a help to our community. He is not able to afford the parking fee per week on his limited income & he may be able to afford a season pass for low income seniors.
