

**TOWN OF PALMER LAKE
BOARD OF TRUSTEES - AGENDA MEMO**

DATE: April 13, 2023	ITEM NO.	SUBJECT:
Presented by: Town Administrator /Clerk		Resolution to Authorize Parks Commission to Create Trail on Town Property

Subsequent to multiple Board discussions, this item is a resolution to authorize the Parks Commission to create a trail as directed by the Board, at this time. It was discussed that trail connection is important within the town. It should comprise of direction from the Board (per the resolution), notice to the abutting property owners, and flag/stake of the trail area on town property prior to establishing a new trail. It is understood that the initial direction is for Parks to design a trail starting at Kent (with no parking established on the ROW) to cross the creek to connect to Creekside and connect to the elephant rock property at the open pavilion. This design will include one bridge for 2023. Board requested that the proposed parking area along Epworth be staked for review and future consideration with a master plan.
