Subject: Contact information for the Children's Center Board

We do not know who, exactly, is getting this email, but we are wondering who is the chairperson for the board of the Children's Center and if we can have their contact information. We have tried to talk to the director about excessive noise (screaming) without any staff intervention. We would like to address the board and see if we can't come to an understanding about the children's outdoor supervision.

Thank you,
Tim Bernard
