Subject: Regarding Burrell Subdivision

Petersburg Assembly,

As a long time resident of Petersburg, I have seen the challenges our community faces with our lack of affordable housing resources, as well as the detriment those challenges have caused and continue to cause for residents and businesses alike. I have a child with a good local job who cannot afford to purchase housing in this town.

I have long been a supporter of progress and although nobody wants to volunteer their backyard to be the vessel of change, I do not intend to stand in the way of or be a reason for that change to fail before it is started.

As the future owner of 1101 Odin, and for public record, I will not stand in the way of Sig and Ambre Burrell's planned affordable housing development adjacent to my property.

Respectfully yours,

Aaron Marohl
